

DRESDNER TEXTILE RESEARCH CENTER ANNOUNCES A NEW NAME: **INSTITUTE OF TEXTILE MACHINERY AND HIGH PERFORMANCE MATERIAL TECHNOLOGY**

Our research center has a new name! Our Institute is continuing its intensive interdisciplinary pursuits under the new name of "Institute of Textile Machinery and High Performance Materials Technology. The Institute is firmly established in the European research field and known for its excellent research and academic achievements. Our new name, as of July 2009, reflects the emphasis our Institute places on the importance of research, development and studies in the application of high-performance textiles and the machinery required to produce outstanding and innovative products. Our institute is available as your competent partner in research with the same proven quality standards.

Institute of Textile Machinery and High Performance Material Technology (ITM)

Director: Prof. Dr.-Ing. habil. Dipl.-Wirt. Ing. Chokri Cherif

Accompanying processes: construction, testing, simulation

Contact:

Institute of Textile Machinery and High Performance Material Technology
Professorship in Textile Engineering and Technology: Univ.-Prof. Dr. Ch. Cherif, E-Mail: chokri.cherif@tu-dresden.de
Professorship in Ready-made Engineering and Technology: Univ.-Prof. Dr. H. Rödel, E-Mail: hartmut.roedel@tu-dresden.de
