

PUBLICATION LIST

Book publications (editorships)

Giulia Boller, Matthias Beckh, Rainer Schützeichel, Joseph Schwartz, Laurent Stalder: Heinz Isler – Built Experiments – Entrepreneurial Networks. Zürich: gta Verlag. 2025

Matthias Beckh, Juan Ignacio del Cueto, Matthias Ludwig, Andreas Schätzke, Rainer Schützeichel (ed.): Candela – Isler – Müther: Positions on Shell Construction. Basel: Birkhäuser Verlag. 2020

Matthias Beckh, Thomas Schrom: Nepal 2015 Earthquake - Detailed Damage Assessment and Concept for Rehabilitation. FinalReport. KfW Group / UNESCO Kathmandu. 2016

Matthias Beckh: Hyperbolic Structures – Shukhov´s Lattice Towers - Forerunners of Modern Lightweight Construction. Wiley-Blackwell Verlag. 2015

Matthias Beckh: Hyperbolische Stabwerke – Šuchovs Gittertürme als Wegweiser in den modernen Leichtbau. 2012. München: Detail Verlag

Book chapters

Matthias Beckh, Rainer Schützeichel: Experiments becoming buildings – the contribution of Heinz Isler to shell design in the 20th century. In: Giulia Boller, Matthias Beckh, Rainer Schützeichel, Joseph Schwartz, Laurent Stalder: Heinz Isler – Engineer Entrepreneur Researcher. Zürich: gta Verlag. 2025

Matthias Beckh: Gebaute Modelle. In: Wilfried Dechau: Heinz Isler – Schalen. Ludwigsburg: Wüstenrot Stiftung. 2022. P. 22-29

Matthias Beckh: Struktur und Architektur im neuen Dialog. In: Michael Kaliske, Wolfgang Graf (ed.): 25. Dresdner Baustatik Seminar - Realität - Modellierung - Tragwerksplanung. Institut für Statik und Dynamik der Tragwerke. TU Dresden. 2021. P. 71-83

Matthias Beckh: Spaces for industry - a comparison of modular shell systems by Félix Candela and Heinz Isler. In: Matthias Beckh, Juan Ignacio del Cueto, Matthias Ludwig, Andreas Schätzke, Rainer Schützeichel (ed.): Candela – Isler – Müther: Positions on Shell Construction. Basel: Birkhäuser Verlag. 2020. P. 24-33

Matthias Beckh: From foam to form – the peculiar first free-form shells of Heinz Isler. In: Matthias Beckh, Juan Ignacio del Cueto, Matthias Ludwig, Andreas Schätzke, Rainer Schützeichel (ed.): Candela – Isler – Müther: Positions on Shell Construction. Basel: Birkhäuser Verlag. 2020 P. 110-117

Matthias Beckh, Rainer Schützeichel: The formative years of Heinz Isler. In: Matthias Beckh, Juan Ignacio del Cueto, Matthias Ludwig, Andreas Schätzke, Rainer Schützeichel (ed.): Candela – Isler – Müther: Positions on Shell Construction. Basel: Birkhäuser Verlag. 2020. P. 90-97

Bert Praxenthaler, Matthias Beckh: Safeguarding and preservation activities at the Giant Buddhas of Bamiyan 2004 – 2017. In: Masanori Nagaoka (ed.): Bamiyan Buddhas: Springer 2020. P. 31-49

Matthias Beckh: Webs Woven in Steel – Geometry and Structural Behavior of Vladimir Shukhov's Lightweight Structures. In: Shukhov – Formula of Architecture (exhibition catalogue). Schusev State Museum of Architecture. Moscow 2019. P. 75-89

Matthias Beckh: Design and partial assembly of the Western Buddha scaffold, 2013-2015. In: Erwin Emmerling, Michael Petzet / ICOMOS: The Giant Buddhas of Bamiyan II – safeguarding the remains. Berlin: Hendrik Bäßler Verlag. 2016. P. 292-298

Matthias Beckh, Mark Böttges, Eberhard Möller, Zoran Novacki: Loadbearing Structure. In: Klaus Sedlbauer, Eberhard Schunck, Rainer Barthel, Hartwig Künzle (ed.): Flat Roof Construction Manual – Materials Design Applications. München: Detail Publishers / Birkhäuser. 2012. P. 24-33

Matthias Beckh, Mark Böttges, Eberhard Möller: Loadbearing Decks. In: Klaus Sedlbauer, Eberhard Schunck, Rainer Barthel, Hartwig Künzle (ed.): Flat Roof Construction Manual – Materials Design Applications. München: Detail Publishers / Birkhäuser. 2012. P. 34-47

Matthias Beckh, Mark Böttges, Eberhard Möller, Zoran Novacki: Tragwerk. In: Klaus Sedlbauer, Eberhard Schunck, Rainer Barthel, Hartwig Künzle (ed.): Flachdach Atlas – Werkstoffe, Konstruktionen, Nutzungen. 2010. München: Detail Verlag. P. 24-33

Matthias Beckh, Mark Böttges, Eberhard Möller: Tragschichten. In: Klaus Sedlbauer, Eberhard Schunck, Rainer Barthel, Hartwig Künzle (ed.): Flachdach Atlas – Werkstoffe, Konstruktionen, Nutzungen. 2010. München: Detail Verlag. P. 34-47

Matthias Beckh: Von der Rippe zum Netz - die Entwicklung der Schalenträgerwerke aus Eisen und Stahl. In: Winfried Nerdinger u.a. (ed.): Wendepunkte im Bauen. 2010. München: Detail Verlag. P. 38-45

Rainer Barthel, Matthias Beckh, Andriy Kutnyi, Manfred Schuller: Ein Meilenstein im Schalenbau - Šuchovs Halle für das Blechwalzwerk in Vyksa. In: Juliane Mayer (ed.) Forschen, Lehren und Erhalten - Festschrift für Rainer Graefe. Innsbruck: iup innsbruck university press. 2009. P. 105-122

Matthias Beckh: Hyperbolische Turmstrukturen von Vladimir Šuchov. In: Rainer Barthel (ed.) Denkmalpflege und Instandsetzung. Vorträge im Wintersemester 2008/2009. Lehrstuhl für Tragwerksplanung. TU München. P. 9-23

Research Reports

Lea Müller, Matthias Beckh: GWG Aufstockung Gotteszellerstraße in München – Raumtragwerke in Holzbauweise für flexible Grundrisslösungen. TU Dresden. Dezember 2023.

Sebastian Bartsch, Matthias Beckh: Digital-parametrische Planungsprozesse für eine ressourcenschonende Nachverdichtung in Holzbauweise. Abschlussbericht Deutsche Bundesstiftung Umwelt 36094/01. TU Dresden. Januar 2023.

Journal Articles

Matthias Beckh: Vladimir Šuchov – un pioniere della costruzione leggera. *Espazium magazine*. 29-11-2023

Matthias Beckh: Günstig, leicht und raffiniert – armierte Strukturen aus Ziegelmauerwerk. In: *Bauwelt* 08.2023. P. 40-45

Matthias Beckh: Concrete Shells – a material-efficient construction technique awaits its renaissance. In: *Detail* 2020 Issue 12 on Concrete Construction. P. 20-29

Matthias Beckh: The Art of Structural Engineering: NiGRES Tower on the Oka. In: *Detail structure – Review of Structural Design and Engineering*. 3/2019. P. 6-7

Matthias Beckh, Rainer Barthel: Wind forces on hyperbolic lattice towers. In: *Steel Construction – Design and Research*. Volume 7 - 2014 (Issue 1): P. 56-58

Matthias Beckh: Avantgarde hinter neugotischer Fassade - London St Pancras. In: *Detail* 2013 Issue 7/8. P. 744-752

Matthias Beckh, Rainer Barthel, Rainer Graefe: Innovation und Ästhetik – der Leichtbaupionier Vladimir Grigor'evič Šuchov. In: *Detail* 2010 Issue 11. P. 1142-1148

Matthias Beckh, Meike Hoheisel: Form und Tragverhalten hyperbolischer Gittertürme. *Stahlbau*, 79 (Issue 09): P. 669-681

Matthias Beckh: Die Türme des Vladimir Šuchov. In: *TUM Campus* 4/2008, P. 26-28

Articles in Conference Proceedings

Tim Mahn, Matthias Beckh: Criteria for digital-parametric design tools for economical load-bearing elements from solid natural stone. 6th International Conference on Structures and Architecture ICSA 2025 Restructure Rematerialize Rethink Reuse. Antwerpes. 2025

Jovanka Kuzmanovska, Sebastian Bartsch, Matthias Beckh: Modeling of Timber Spatial Structures: Interdependencies Between Flexible Floor Plans and Force Flow. 6th International Conference on Structures and Architecture ICSA 2025 Restructure Rematerialize Rethink Reuse. Antwerpes. 2025

Patrick Schäferling, Matthias Beckh: Augmented Decomposition Method: Form-finding for structural equilibrium with design objectives based on alternating direction method of multipliers. 6th International Conference on Structures and Architecture ICSA 2025 Restructure Rematerialize Rethink Reuse. Antwerpes. 2025

Patrick Schäferling, Matthias Beckh: envelope optimization – shape and thickness optimization for multiple loadcases. IASS Annual Symposium. Zurich. 2024

Patrick Schäferling, Matthias Beckh: Form finding for post tensioned, 3D printed fluid containers. IASS Annual Symposium. Melbourne 2024.

Matthias Beckh, Patrick Schäferling: Lightweight tower systems for tall wind energy plants. IASS Annual Symposium. Beijing 2022.

Matthias Beckh, Giulia Boller: From foam to form – the peculiar first free-form shells of Heinz Isler. IASS Annual Symposium. Barcelona 2019.

Giulia Boller, Matthias Beckh: How to gain from loss – Heinz Isler´s Haba project and its testing under critical load. IASS Annual Symposium. Barcelona 2019.

Matthias Beckh, Giulia Boller: Building with air: Heinz Isler´s bubble houses and the usage of pneumatic construction techniques. Construction History Society – Annual Conference Proceedings. Cambridge. 2019.

Matthias Beckh, Giulia Boller, Rainer Schützeichel: An auspicious encounter: Blaser Swisslube as field of experimentation for Heinz Isler´s pneumatic-form shells. IASS Annual Symposium. Boston 2018.

Matthias Beckh, Rainer Schützeichel: Paths to form finding: the formative years of Heinz Isler. IASS Annual Symposium. Hamburg 2017.

Matthias Beckh: Taa Dzong of Trongsa – Reflection on the Re-use of a Bhutanese watchtower. In: Jerzy Jasienko (ed.) Structural Analysis of Historical Constructions – SAHC Conference Proceedings. 2012. Wrocław: DWE. P. 2613 – 2618

Matthias Beckh, Josef Musil, Roland Göttig: Back to the future - parametric design of hyperboloid lattice towers. In: Roland Göttig, Gerhard Schubert: 3D Technologien an der TU München. 2009, Aachen: ShakerVerlag. P. 63 – 74

Matthias Beckh, Rainer Barthel: The first doubly curved gridshell structure - Shukhov's building for the platerolling workshop in Vyksa. In: Proceedings of the Third International Congress on Construction History. 2009. Berlin: Neunplus1. S.159-166

Rainer Barthel and Matthias Beckh: Construction and Structural Behavior of Lead Joints in Gothic stone structures. In: Proceedings of the Fifth International Conference on Structural Analysis of Historic Constructions, New Delhi, P. 867-874

Matthias Beckh, Rainer Barthel, Andrij Kutnyi: Construction and Structural behavior of Vladimir Shukhov's NiGRES Tower. Proceedings of the Sixth International Conference on Structural Analysis of Historical Constructions, Bath 2008, P. 183-190

Matthias Beckh: Traditional construction techniques of the Newars at the Itum Baha monastery in Kathmandu. In: Proceedings of the Second International Congress on Construction History, Exeter 2006, P. 325-339

Matthias Beckh: The cultural heritage of Nepal in the next earthquake. In: International Earthquake Symposium Proceedings: National Society for Earthquake Technology Nepal (NEST), Kathmandu, 2002
