

## Check exam results

### Where can I see my exam results?

- In the selma under Prüfungen → Ergebnisse

(Links for Selma <https://selma.tu-dresden.de/> )

### What do you need to know?

- You can check your exam results in 3 types in SELMA, i.e. "Exam Results", "Semester Results" and "Study Results" (Prüfungsergebnisse, Semesterergebnisse, Studienergebnisse)

- In "Prüfungsergebnisse" you will see the published exam results that you have completed in your active studies. The result are sorted chronologically by the published date.

- In "Semesterergebnisse" you will see the published results that you've completed in a given semester. In the "Semester" shortlist, you can select which semester you would like to view results for.

Prüfungsergebnisse

Semesterergebnisse

Studienergebnisse

- In "Studienergebnisse" you can see the results of all the academic achievements you have achieved during your studies.

The modules are displayed as required by your examination regulations. You can open the individual sections and elective areas. You can also check here that whether a section from the Examination Regulations has been completed or not.

Here shows results from module offers and independent events as well as results of recognized achievements from Germany and abroad. The results are not displayed until at least one attempt is published.

## Notes and tips

- In "Prüfungsergebnisse" you will see a red icon behind some of the exams, click on it and then you will see the performance record for all participants of this exam.
