

EXCHANGE POSSIBILITIES 2020/2021

STUDY at ENISE

One-semester study in French

- 1 academic semester (September to January or February to June)
- 30 ECTS
- Sensorial (physical) or Mechanical or Civil engineering
- Courses choice : 3th, 4th or 5th year of engineer degree course
- Language : French

One-year study in French

- 1 year
- Full-year-study (60 ECTS)
- Sensorial (physical) or Mechanical or Civil engineering
- Courses choice : 3th, 4th or 5th year of engineer degree course
- 2 academic semesters OR 1 academic semester + 1 internship
- Language : French

Engineer-diploma (equivalent to Master degree)

- 2 years
- Full-year-study (120 ECTS)
- Sensorial (physical) or Mechanical or Civil engineering
- 3 academic semesters and 1 internship (final project in a company)
- Language : French

Master of Science in French

- 1 year (eq. to 5th year of engineer degree course)
- Full-year-study (60 ECTS)
- 3 Masters in mechanical engineering :
 - o Mechanics of Materials and Processes (MMP)
 - o Tribology and Surfaces Engineering (TIS)
 - o Biomechanics
- 2 Masters in civil engineering:
 - o Materials and structures for sustainable construction
 - o Soil and infrastructure
- 1 academic semester and 1 research project
- Language : French

Master of Science in English

- 1 year (eq. to 5th year of engineer degree course)
- Full-year-study (60 ECTS)
- 1 Master in mechanical eng. : Tribology and Surfaces engineering (TSE)
- 1 academic semester and 1 research project
- Language : English

NEW! International Semester

- 1 academic semester (September to January) which can be completed by a semester of laboratory internship
- Adaptable program from 15 to 30 ECTS
- Sensorial (physical) or Mechanical or Civil engineering
- Teaching modules (with electives) and Project
- Language : English

INTERNSHIP at ENISE

At ENISE laboratory

- From 2 months up to 6 months
- Sensorial (physical) or Mechanical or Civil engineering
- Lab : LTDS (Tribology and System Dynamics)
<http://www.enise.fr/Recherche-et-innovations/presentation.html>
- Language : French or English

UPCOMING at ENISE

Bridge Challenge

- End of March : 28 & 29 with possibility of modules at ENISE before
- Civil engineering

Summer School

- June – July (from 2 weeks up to 2 months)
- Teaching modules and Project
- Sensorial (physical) or Mechanical or Civil engineering
- Language : English

CALENDAR

Nomination by partner universities at international@enise.fr

Deadline: May 15 for autumn semester and full year, November 15 for spring semester

French intensive course at ENISE: from August 26 - 2 weeks - free of charge

For more French lessons during the summer: <https://cilec.univ-st-etienne.fr/fr/>
