15.35 – 16.50	Peter Deegen (Technische Universität Dresden, Tharandt, Germany), Martin Hostettler (Cycad AG, Ittigen, Switzerland) Understanding uncertainty as a result of entrepreneurial action Moderator: Nicola Caravaggio (Roma Tre University, Italy)
16.50 – 17.10	Closing: Sen Wang (University of Toronto, Canada)
18:30 -	Guided city walks, combined with forestry history, (inclusive dinner, individual paying) Meeting point: (conference venue: Dresden University of Fine Arts, Brühlsche Terasse 1, 01067 Dresden)

List of posters

Name	Title
Zeki Matti Akrawee (University of Duhok, Iraq)	Entrepreneurship of Iraqi forest trees in domestic pharmaceutical industries
Andres Susaeta (Oregon State University, USA), Peter Deegen (Technische Universität Dresden, Germany)	Forest conservation easements: entrepreneurship between private landowners, nonprofit organizations and government agencies in an entangled economy

Wednesday, September 27th

Field trip

Landscape change through acting humans

Brief description:

Humans have always had trouble with time because the human mind produces changes in the uses of landscape several times faster than ecological and geological processes can do.

Near Dresden there is a huge unique open-cast mining landscape. Since the mine has been in operation for about 100 years we will find four snapshots of intensive landscape changes: the traditional pine woods, the mine in operation and the old and new post-mining restored landscape.

The participants of the Fourth International Conference on New Frontiers of Forest Economics are invited to experience a journey through Landscape change.

Date: September 27, 2023, 08:00 to 18:00

Departure and arrival:

The field trip starts at 08:00 a.m. at the Tourist Bus Parking Lot at the Carola Bridge (about 500 meter from the conference venue).

The field trip ends 18:00 at the Tourist Bus Parking Lot at the Carola Bridge.

Field trip fee: 80 Euro/person.

Co-operation partner:

The Lusatian Energy Company (LEAG)
