Notice
for all students enrolled in the Master's program in Tropical Forestry

Information about exams in the 2027 winter semester

- You can register for exams online via Selma.

- Exam registration is only active during the specified period (from december 14, 2026, to January 11, 2027; withdrawals are possible online up to 14 working days before the start of an oral exam or 3 working days before a written exam*).

- You cannot register for exams outside this period. For oral exams, please refer to the notice "Exams without overlaps." You must register for a specific time for an oral exam via OPAL (responsible institute) for the exact time allocation.

- You can choose from the exams currently offered for your degree program.

- You cannot register using this function if you

1. are not enrolled in the degree program included or are studying according to a different examination regulation (version);
2. are not registered as "re-enrolled" for the current semester at the International Office;
3. not meet the exam requirements, have exceeded the deadlines, have already lost your right to take the exam, or have already achieved a certain level of progress in your studies that prevents you from registering for an exam.

IMPORTANT!

- Please only register if you are absolutely certain that you will be able to take the exam. This will save both you and us a lot of stress.
- Please note the notice "Withdrawal from exams due to illness."
- Bring your student ID and ID card to all exams, as the examiners may ask to see them.
