For information to the doctoral candidate

**Doctorate Proceedings of Ms. Huyen Chau Dang -
Display -**

Ms. Huyen Chau Dang has submitted the dissertation at the Faculty of Environmental Sciences (Department of Hydrosociences) with the topic

Valorization of by-products from wet coffee processing: waste to carbon-rich material using hydrothermal carbonization to improve the sustainability of the coffee value chain in Vietnam.

The dissertation and its reviews will be available for inspection **electronically from 05.03.2025 to 19.03.2025.**

According to § 10 (7) of the doctoral degree regulations, the doctoral candidate, the university professors and the scientific staff of the Faculty of Environmental Sciences have the right to inspect the reviews including the suggested grade within the display period. The university professors as well as the scientific staff can submit their personal written vote for or against the acceptance of the dissertation with justification to the chair of the doctoral committee within this period.

Please address your request for access to Ms. Dr. Susann Kutzner (susann.kutzner@tu-dresden.de),
