

Results of 6th workshop Plauen and preparation of 7th workshop Dresden

1. Adapting of education structure to Bologna-Process

- Reduction in the total study period of 5 years (Bachelor + Master)
- Modularization of the course structure
- Introduction of the credit point system (ECTS)
- Acceptance of certificates in the EU
- Introduction of Long Life Learning process
- Inclusion of the students in the development and decisions about the education.
- As results are expected:
 - Increasing of student mobility: After the bachelor's degree can the students change the University or they can continue their studying abroad
 - Effectuation of education:
 - for students: shorter duration of study
Higher academic graduation
 - for universities: Shorter duration of education = less expense for staff, rooms and technical facilities,
Multi-using of education modules by different faculties
 - Involving of students in the academic autonomy of university/faculties (e.g. in study commissions)

2. Realisation of new study courses

The new structure is created for the most study courses for the different universities.

The ALBA should deliver new structure until end of July, 2014

Only the DAM has developed the module description. All other universities should deliver **the module handbooks until end of July 2015.**

3. Final report
