

## New Conservation Grants for 2026 available for TU Dresden students!

New year, new opportunities! Are you still looking for a summer internship or placement opportunity? The GVI Foundation has officially launched its new grant pool for the year, and TU Dresden students are invited to apply!

This is your chance to use your university break to travel the world, get practical field work experience, and conduct conservation research alongside scientists and experts.

A GVI Foundation grant could cover up to 80% of a GVI marine or wildlife conservation program at a location of your choice, which includes food, accommodation, training and field activities on programs from 2-36 weeks.

**Your GVI Grant Code: OTH-GVI-TUDRE**

[Take a look at this video](#) to listen to the inspiring stories from grant recipients who joined a program with a grant last year!

**A GVI conservation grant gives you the chance to:**

- Get real field experience to help launch into your dream conservation career.
- Join a GVI conservation program at a research station in one of 20+ extraordinary locations (including [South Africa](#), [Fiji](#), [Costa Rica](#), [Madagascar](#), [Greece](#), [Mexico](#), [Thailand](#), [Seychelles](#) and beyond.)
- Work alongside marine, wildlife, conservation and sustainability experts.
- Contribute to ongoing scientific research.
- Work on a personal project under the guidance of an experienced mentor.

Choose your preferred [GVI conservation program](#), apply or enquire via the form, and enter your grant code **OTH-GVI-TUDRE** when prompted.
