

Master Program Transportation Economics
Catalog of courses offered in the academic year 2023/2024
 Status 01.10.2023

1 Offers General Qualification Module VW-TEc-MA-AQUA

Within the framework of the module VW-TEc-MA-AQUA, courses can freely be selected as follows, provided that students have not yet attended any of them in other modules or in the bachelor degree:

- Master degree courses as well as courses offered in the main studies of the diploma degree from the Faculty of Business and Economics,
- Courses for non-lawyers from the Institute of International Law, Intellectual Property and Technology Law, <https://tu-dresden.de/gsw/phil/irget/jfbimd13/studium/vorlesungen-nichtjuristen>,
- Courses of other faculties of the TU Dresden.

Courses must consist of **at least 3 SWS**. Students have to make sure that the lecturer/examiner is willing to conduct the examination for them. This must be clarified in advance by the students on their own responsibility. In order to count as a test performance, students have to provide evidence **with graded examinations**, which, according to the module description, are the basis for the formation of the module grade.

Being a student program coordinator can be credited with 1 SWS per semester.

2 Offerings of the Foreign Language Communication

Within the framework of modules VW-TEc-MA-FFK 501 to 509, language courses must be attended and completed with examinations. They must not have already been contributed for another degree program. The language must not correspond to the students' native language.

Overview of the language modules and associated language courses:

Module	Level / Topic	Courses	Languages	SWS	Exam
