

## **Faculty of Business and Economics**

The **Chair of Business Management, esp. Sustainability Management and Environmental Accounting** (Ms Prof. Dr. Edeltraud Günther) offers, subject to resources being available, in cooperation with **PRISMA - Centre for Sustainability Assessment and Policy**, starting at **01.07.2019**, a project position as

### **Research Associate / PhD Student / Postdoc**

(Subject to personal qualification employees are remunerated according to salary group E 13 TV-L)

with 75% of the fulltime weekly hours until 30.06.2022. The period of employment is governed by the Fixed Term Research Contracts Act (Wissenschaftszeitvertragsgesetz-WissZeitVG). The position offers the chance to obtain further academic qualification (e.g. habilitation thesis). The weekly working hours may increase up to 100% until 31.12.2020 if assistance in accompanying research for real-world laboratories for sustainability transformation is given.

In PRISMA – Centre for Sustainability Assessment and Policy researchers are developing methods on sustainability measurement and assessment with scientists from a wide range of disciplines comprising natural sciences, engineering or social sciences.

**Tasks:** Participation in research projects in the field of business model sustainability of electric vehicles and accompanying research for real-world laboratories for sustainability transformation. Selected research topics are life-cycle costing, barrier analysis or methods of business modeling. The opportunity of a habilitation in the area of sustainability measurement will be supported by the chair holder with emphasis.

**Requirements:** University degree (Diplom, Master), and – if applicable - PhD degree in business and economics, business and engineering or business and computer science; in-depth knowledge of methods on sustainability measurement, as well on statistical methods and experience in working with standard business software (SPSS, Microsoft Office); independent and flexible working methods, willingness to interdisciplinary teamwork; analytical reasoning; very good English and German skills, good writing style, good rhetoric, didactic skills; joy in teaching and social skills.

Applications from women are particularly welcome. The same applies to people with disabilities.

**Working environment:** Highly interesting environment in the area of sustainability measurement, which is applied both in research and teaching as well as in practice; personal and professional competence gain through cooperation in manifold topics of the interdisciplinary centre PRISMA – Centre for Sustainability Assessment and Policy; participation in the transfer of knowledge into company practice; flexible working time; creative, communicative and result-oriented business climate; interesting university location; sports facilities on the campus; recognized excellence university; university with child.
