Verein zur Förderung wissenschaftlicher Arbeiten  
in der Energiewirtschaft an der TU Dresden e.V.

Since 2004 the Chair of Energy Economics at TU Dresden has been training and preparing students for future careers in business and academia. During this time, the friends' association *enerCONNECT* has striven to support the academic work being conducted in the field of energy economics at TU Dresden. At the same time, the association has been actively engaged in providing a platform for maintaining an exchange with alumni and those affiliated with the Chair and thus views itself as a network of experts in the field of energy economics. Membership in the association *enerCONNECT* is open to all graduates as well as friends of the Chair of Energy Economics.
