9th ifo Dresden Workshop on Regional Economics

September 12–13, 2019 in Dresden, Germany

The ifo Institute, Dresden Branch, announces the 9th ifo Dresden Workshop on Regional Economics. The workshop aims at facilitating the networking of young scientists and at promoting the exchange of their latest research. Relevant topics include regional structural change and persistency, political economy, and public economics including place-based policies. Preference is given to empirical papers estimating causal inferences in a spatial context or using recent geo-data and respective methods. The workshop will be held in English.

We specifically encourage PhD students and post-doctoral researchers to submit their latest research. Each paper will be allocated 45 minutes, to be divided between the presentation, a short discussion by an assigned workshop participant and a general discussion.

Submissions

Please submit your (preliminary) paper by **June 28, 2019** via the workshop website (www.ifo.de/w/sLJUvmiD). Alternatively, check the ifo website for forthcoming conferences. Acceptance decisions will be announced by **July 26, 2019**.

We are looking very forward to seeing you in Dresden.
