Experience

Researcher

11/2023 – today

Chair of economics, esp. international economics, TU Dresden

I teach econ students in undergraduate economics and in applied econometrics. I research in the field of political and regional economics.

Student assistant

2020 – 2023

TU Dresden

I mostly worked in R to analyze large geo-spatial data sets. I also reviewed literature and prepared training data for a machine learning algorithm, and coded key indicators for 100s of scientific articles to create a database. Additionally, I held tutorials for a beginners' statistics lecture.
