

Current Topics in Health Economics: Relevance of nutrition as disease prevention

Master Seminar - WS 2022/2023

Teaser

- Can certain diseases be prevented by certain diets?
- What is the size of the market for dietary supplements?
- How can willingness to pay for dietary supplements be quantified?

We will examine these and similar questions from a scientific perspective in the seminar. A detailed list of topics including further literature will be provided at a later stage. It is also possible to work on a self-selected appropriate topic.

Requirements

The seminar is addressed to master students who are interested in health economic research. Language (English or German) is of free choice.

Exams

Participants can earn 5 credit points when completing: term paper (10-12 pages), seminar talk (20 minutes presentation + 10 minutes discussion), mandatory mid-term consultation and active participation in the seminar.

Lecturers

Prof. Dr. Alexander Karmann, TU Dresden (alexander.karmann@tu-dresden.de)

Selina Schulze Spüntrup, ifo Institute Dresden (schulze-spuentrup@ifo.de)

Schedule

Please pre-register until **18 Oct 2022** via e-mail for the kick-off meeting: schulze-spuentrup@ifo.de. First-come-first served applies.

- | | |
|----------------------------|---|
| 20/10/2022 (10:00–11:30): | Kick-off and assignment of topics (online) |
