# Get started.

You will be automatically forwarded to your Research Connect Dashboard.

The screenshot shows the ResearchConnect dashboard with a dark blue header containing navigation links: Home, Search, News, Bulletins, and Highlights. A search bar is located below the header. The main content area is divided into several sections: 'Saved searches' with tabs for Personal (5), Workgroup (19), and Organisation (0); 'Research funds added' listing various funding opportunities with dates and titles; 'Upcoming research deadlines' listing deadlines for scholarships and grants; and 'Research news' listing recent news items. A notification at the top right indicates '23,600+ research funding opportunities'.

By choosing „SEARCH“ you start your first funding research.

This screenshot shows the search results page on ResearchConnect. A red arrow points to the 'Search' menu item in the top navigation bar. The page displays '3564 items found. Page 1 of 357.' and includes a 'Filter results' sidebar with options for Results Type, Status of Results, New/Updated Funds, and Research Discipline. The main results area shows a list of funding opportunities, including '2022 Call for Proposals: Letters of Intent (LoI) Deadline - Alzheimer Netherlands - Innovative Research Grants' and 'All Saints Educational Trust Scholarship'. Each result includes a title, a 'Parent fund' link, and a status indicator like 'Upcoming deadline' or 'Updated'.

# Your first search.

You have now the opportunity to define search results. You choose or skip several filter-settings. You can also add a text search or include and exclude specific buzzwords for your search.

# Save your search.

Having your first results, you can save your specific search with all its filters for regular use, set alerts and send your results to colleagues and potential cooperation partners.

Alerts can be defined within the next step. You can keep it deactivated at this point.

3595 items found.

# Save your search.

For example choose „Updated funds“, „select items“ and „Save search“. And now you can save a specific result list, which can be downloaded.

The screenshot shows the 'Research funding results' interface. On the left, there are filter panels for 'RESULTS TYPE' (with 'Show funds' selected), 'STATUS OF RESULTS' (with 'Future' and 'Open for Applications' selected), and 'NEW/UPDATED FUNDS' (with 'Updated funds' selected). The main area displays '439 items found. Page 1 of 44.' and a 'Select items' button with a '10 selected' indicator. A specific funding opportunity is highlighted: 'National Institutes of Health (NIH) R01 Research Project Grants', which is 'Updated' and has an 'Upcoming deadline'. Below the title, there is a 'Select this result' button and a 'Show more description' link. At the bottom, a table shows the 'Status' as 'Open for Applications', 'Maximum value' as 'Discretionary', and 'Current deadline' as '04.02.2022'. A 'Save search' button is highlighted in the top right corner.

The 'Save funds' dialog box shows '10 items' to be saved. It includes a dropdown menu for 'Available folders' with 'Save Search\_Test' selected, and a '+ Add new folder' link. Below that is a text input field for 'New list name' containing 'Save Search\_Test\_Biotechnology\_updated funds'. There is a checkbox for 'Send me weekly email alerts based on changes to funds in this list' which is currently unchecked. At the bottom, there are 'Save' and 'Cancel' buttons, and a link to 'Cancel and add to an existing list'.

# Download your search.

You can also produce a report (xlsx, docx) by choosing „Download selected“, which you can send to colleagues and potential cooperation partners. We recommend „Excel report“ and „Word report - Standard“.

Recognize to select the right scope of results (usually you should select the items „in all results“ / „select all“)

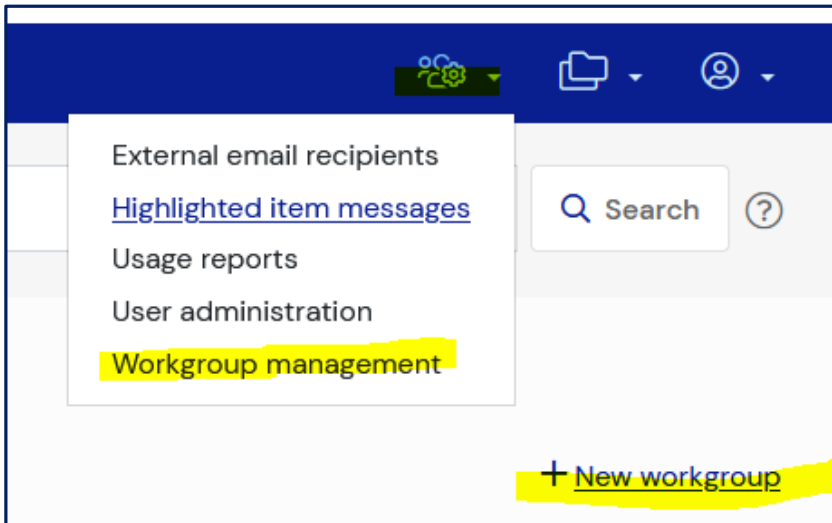

The image shows two overlapping screenshots of a search results interface. The left screenshot shows a search result for 'BBVA Foundation Frontiers of Knowledge Awards' with 63 items found. A red arrow points to the 'Download selected' icon in the top toolbar. The right screenshot shows a search result for 'Call for Proposals: Letters for Research Grants' with 3567 items found. A dropdown menu is open, showing options for 'ON THIS PAGE' and 'IN ALL RESULTS', each with 'Select all' and 'Deselect all' sub-options.

The image shows a form titled 'Download selected items in a report' with a '10 items' indicator. The form has four input fields: 'Report title' (containing 'Test\_O1'), 'Description' (containing 'Biotechnology'), 'Client name' (empty), and 'Report template' (a dropdown menu). The dropdown menu is open, showing options: 'Please choose...', 'Excel report', 'Word report - Full details', 'Word report - Standard', 'Word report - Summary', and 'Word report - Titles only'. The 'Excel report' and 'Word report - Standard' options are highlighted with red boxes. At the bottom, there are 'Download' and 'Close' buttons.

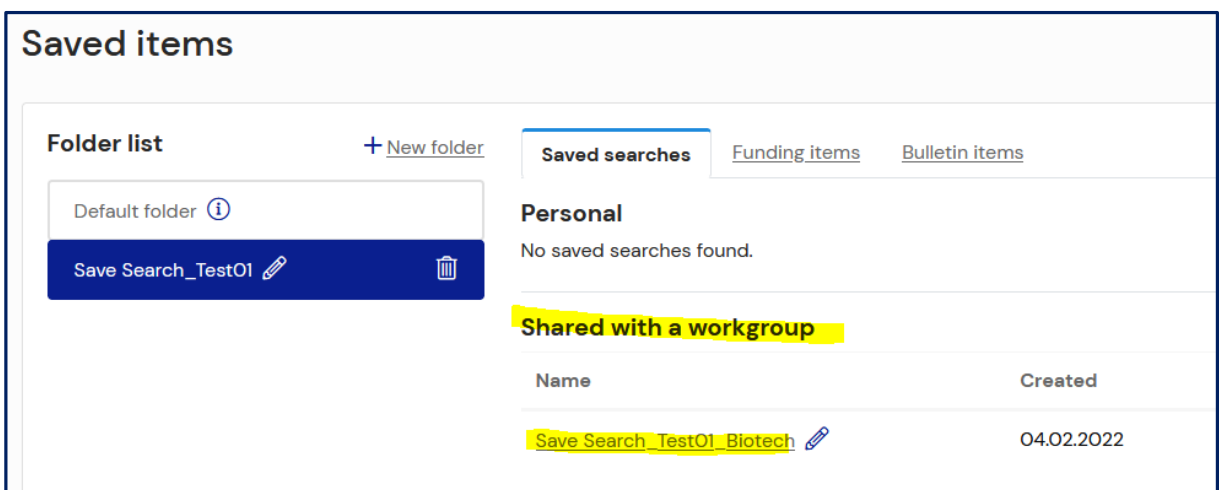

# Workgroup management.

You can save several workgroups, which can be used to share your results efficiently to the right persons and groups.

For example:

# Use TUD Research News.

You are searching for information on calls collected especially for your faculty?

Please have a look into our monthly published [TUD Research News](#).
