## Search RESEARCHconnect

[New search](#) [Restore last search](#)

1. Who you are 2. Where you are 3. What you are doing [Funding source](#) [Text search](#)

### Step 1 - Who you are

What is your status? [Select statuses](#)

What is your research discipline? [Select research disciplines](#)

What is your nationality? [Select nationality](#)

Where are you resident?

Select one or more German locations

Select one or more countries

Search phrase:

Germany

[Next step >](#) [Search now](#)

### Search tips

Are you applying as an individual or on behalf of an organisation?

Filtering by status allows you to run a search for individuals as well as searches on behalf of research groups, or higher education institutions, hospitals, research institutes and private companies.

The options under research discipline enable you to search on specific subjects. Browse the tree and use the search box to find subjects within the research discipline categories. Hovering over the subjects in the tree, or using the glossary, will provide you with definitions for each term.

Tick one box to select the option which your nationality falls within.

Use the search box to select the country in which you are currently resident.

Having your first results, you can refine your outcome using multiple additional filter-settings. You can also produce a report (pdf) by choosing „Produce report“, which you can send to colleagues and potential cooperation partners.

The screenshot displays the RESEARCHconnect Germany website interface. At the top, the logo and tagline "Identify, apply for and manage research funding" are visible, along with navigation links for "Welcome", "Logout", and "Contact our helpdesk". A main navigation bar includes categories like "HOME", "ABOUT US", "SEARCH", "NEWS", "MY RESOURCES", "LIBRARY", "BULLETINS", "USEFUL ARTICLES", and "CONTACT US".

The search results page shows "Search results" with a breadcrumb trail: "Home / Search RESEARCHconnect / Search results". A sidebar on the right contains filter options: "Filter by funding amount" (with a slider from €0K to €1000K), "Filter by funding type", "Filter by funding source", "Filter by new/updated", and "Filter by status". A "Produce report" button is located at the top right of the results area, and an "Apply filter" button is at the bottom of the sidebar. Red arrows point to these buttons.

The main content area shows "Research funding results (362)" and "Research calls (178)". Under "Research funding results", it states "362 research funds have been found, click on each title to see the full fund details." and "Showing page 1 of 37". A sorting bar includes "Sort by: A to Z", "Discipline", "Deadline", "Funding type", and "Status". Action buttons include "Select all on this page", "Clear all on this page", "Save selected items", "Exclude selected items", "Save search", and "Save search as a template". A pagination link shows "« Previous: 1 2 3 4 5 ... 37 Next »".

The "All Schemes" section features a search result for "3R: Replacement, Reduction and Refinement" with an "UPDATED" badge. The description reads: "Funding is provided for scientific research projects dedicated to developing options for the replacement and reduction of animal testing, as well as the refinement of animal testing methods which will reduce suffering." The funding body is "Bundesministerium für Ernährung und Landwirtschaft (BMEL - Federal Ministry of Food and Agriculture)". Other details include "Max. value: Discretionary", "Status: Closed to Applications", and "Application deadline: None specified".

To learn more about filter-settings and available search options go back to the main menu bar -> „My Resources“.

To find the User Guide and a tutorial video, choose: „My Resources“ and select „My toolkit“
