

15 YEARS

DRESDEN-CONCEPT GENOME CENTER

TECHNOLOGY UPDATE SYMPOSIUM

DRESDEN
concept

Genome
Center

THU, OCTOBER 30TH 2025

AGENDA

01:00 PM Introduction & Welcoming

01:10 PM **Andreas Dahl:** Historical Overview
The DcGC through the past 15 Years

01:30 PM **NGS Technology Update:** News in RNA-Seq
Portfolio, Single-cell and Spatial

02:15 PM **Christin Richter:** One Strand at a Time: Solving
the Challenges of Single-Stranded Sequencing

02:45 PM Coffee Break

03:15 PM **Marius Ader:** Integration and maturation of human
photoreceptors transplanted into mouse models of
retinal degeneration

03:45 PM **Meritxell Huch:** Single-cell analysis of liver
regeneration

04:15 PM **Bioinformatics Team:** Update in
Portfolio

04:45 PM **Frank Buchholz:** NGS & Sequencing through
the next Decade

05:15 PM Get Together and Snacks
08:00 PM
