Good Scientific Practice

All members and employees of TU Dresden are obliged to observe the **Statute for Safeguarding Good Scientific Practice, for Avoiding Scientific Misconduct and for Dealing with Violations** as the basis of their scientific work and to contribute actively to avoiding scientific misconduct within their sphere of responsibility.

It is important to get to know the standards and principles of good scientific practice as early as possible in order to avoid unpleasant surprises later! The GA supports you with a broad training and advisory service specifically developed for your needs.

In **case of conflict** there are various places at TU Dresden for you to go to in order to confidentially seek for support and advice. These are:

- the Graduate Academy
- the **ombudsperson of TU Dresden**
- **liaison officer for early-career researchers**
- the **Office for Good Scientific Practice**

The **Service Center Research Data** offers a comprehensive consulting service for the management of research data.

Offers of the GA

Workshops in the GA qualification program

As part of the GA qualification program, workshops on good scientific practice are held regularly in German and English.

In addition, we offer other courses dealing with issues related to scientific integrity (e.g. visualization of research data, scientific writing, management of research data, and many more). Information on these workshops can be found on our [website](#).

On Demand Workshops

The GA offers on request introductory workshops on “Good Scientific Practice” for doctoral candidates. These workshops can be conducted in-house by qualified course instructors of the GA.

eLearning course „Good Scientific Practice“

The GA now offers its members an eLearning tool “Good Scientific Practice”. If you would like to take this course, simply send a short email to graduertenakademie@tu-dresden.de.

Advice

Doctoral candidates and postdocs with questions regarding good scientific practice can also make individual appointments with specifically qualified advisors at the GA. Would you like to book an appointment? Please use the [GA-contact form](#).
