

**Lump sum rates for stays of foreign junior scientists at the TU Dresden in the program "great!  
ipid4all"**

Depending on the duration of the stay, two different lump sum rates have to be used:

- a) Daily rate: EUR 50, - (but not more than EUR 250 per week).
- b) Monthly rate: EUR 1.000, - (from the 23<sup>rd</sup> day onwards)

The awardee receives a monthly allowance of EUR 1.000,00 if the monthly stay exceeds 23 days (minimum one month up to three months can be funded in total). Please calculate on a weekly (max EUR 250,- per week) and/or daily basis (daily rate EUR 50, -) if the following months do not exceed the duration of 23 days (from the 23<sup>rd</sup> day onwards the monthly allowance has to be used).

The lump sum rates cannot be exceeded. It is up to the universities whether they apply the lump sums for the entire stay or only for a part of it; the remaining costs have to get financed by another source. Costs exceeding the DAAD lump sum rates have to be covered by the grantee by other means.

**Example of calculation**

Research stay in Germany of a duration of 9 weeks and one day (64 days)

Week 1-4	Week 5-8	Week 9	Day 64	Total
Monthly rate	Monthly rate	Daily rate (max. EUR 250/week)	Daily rate	
1.000 EUR	1.000 EUR	250 EUR	50 EUR	2.300 EUR
