

If you have **difficulties** in displaying your opened pdf document resp. **entry fields** of computer fillable forms and/or **links** are not working correctly,

please change the following Firefox settings under **Tools → Options**

(in case of hidden menu bar under Firefox → Options → Options)

and under **Applications**: under Content Type „Portable Document Format (PDF)“ select the Action „Use Adobe Acrobat (in Firefox)“
(if not available select at least „Use Adobe Acrobat“)

Finally, **close** the document and open it again.
