

**Students on the degree programme  
Nanoelectronic Systems**

## Request for examination registration

Hereby, all students enrolled in the Master's program of Nanoelectronic Systems are invited to register for the modules and examinations including work experience of the summer term 2026.

The registration period takes place from

**29.06.2026 bis 19.07.2026**

The registration or deregistration have to be carried out online via **SELMA.**

<https://selma.tu-dresden.de>

Students are also requested to check their registrations, to print out a clearly identifiable record of the examinations they have registered for and to bring this with them to the examinations.

Problems with enrolment must be reported to the Examinations Office within the enrolment period.

Before enrolling for the exams you have to enroll for the modules!
