

SHK Position

Machine Learning and Spiking Neural Networks

In the framework of ongoing research projects at the HPSN chair of the Faculty of Electrical Engineering, there is an open SHK position for supporting the algorithm research in machine learning and / or spiking neural networks.

Your task will be reproducing results from state of the art machine learning and / or spiking neural network research, and modifications of the models, to support our ongoing algorithm development, through which you will gain experience in cutting edge research.

Requirements:

1. good GPA
2. experience in Python
3. interest in machine learning and spiking neural networks

If you are interested, please send your CV and transcript to
