

Registration of CMS Team Project (8 SWS, 300 hours total)

Study course: Computational Modeling and Simulation

Track: _____

Assignment to the module: CMS- _____
(Module Acronym)

Members of the team: overleaf

Topic / Title of the team project:

Start date: _____ Submission deadline: _____

(12 weeks later)

Task description and deliverables:

Title / Name of the examiner: _____

Date

Signature

Team Members (2 to 4 persons)

Registration for the Team Project (Title):

Name	First Name	Student ID	Signature

We are aware that, while the project is carried out as a team, the grading and evaluation will be on an individual basis. We ensure that individual contributions are going to be made explicit and will be declared in accordance with §8(4) CMS Examination Regulations.

We are aware that the grading is going to be based on a written project report ("Projektarbeit") and an oral presentation ("Referat") of 30 minutes duration, both in English. The weighting of the two grades in the final module grade is according to the relevant module description.

Distribution: Examination Office (original), Examiner (copy)
