INTERNSHIP (M/F) APPLICATION MANAGEMENT AND CLOUD SERVICES

DRESDEN

We ensure the smooth operation of the IT infrastructure of our customers. Our team is specialized in the hosting and application management of business critical applications and all the corresponding systems, e.g. hardware, network infrastructure, web- and applications servers as well as databases.

YOUR TASKS

- Administration of LAMP systems
- Scripting with Shell, Perl or Python
- Automation of deployments and orchestration of systems with Puppet, OpenStack and Jenkins
- Installation and implementation of infrastructure in the datacenter

YOUR PROFILE

- Study of computer science, business informatics or similar education
- Fundamental knowledge of Linux operating system
- Good knowledge of at least one of the described technologies and practical experience in scripting
- Interest in hardware and system/application administration
- Very good English skills in speech and writing
- Ideally basic German skills

Personally you convince as a motivated, reliable team player and as a competent partner for our prestigious customers. Your way of working is characterized by high analytical expertise for solution approaches and customer orientation. You enjoy the training in new and innovative technologies. To get the most of your internship period it should last at least 6 months.

YOUR CHANCE

If you are looking for new challenges, varied projects and responsibilities, then contact us specifying the password "internship_AMCS" with your comprehensive application including the completed application form to jobs@t-systems-mms.com.

T-SYSTEMS MULTIMEDIA SOLUTIONS
offers motivated and creative employees a pleasant working environment in an open corporate culture with challenging and interesting tasks. We create the best conditions for your career in the digital business and social ecosystem with a flexible working time model, further training program, flat hierarchies and diverse, innovative topics.

Our aim is to reconcile professional fulfillment and family. Therefore we would like to encourage women to apply. Equality is an important issue for us, which is why we preferentially hire people with disabilities, if they are equally professionally qualified.

WE ARE LOOKING FORWARD FOR YOUR APPLICATION
