| Responsible lecturer            | Ute Meyer<br>ute.meyer@tu-dresden.de                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Qualification objectives        | Students have an elementary command of Chinese at level A1 of the Common European Framework of Reference for Languages. Students can slowly and clearly articulate concrete information on familiar everyday topics, understand simple and short texts with a focus on key words in terms of syntax, semantics, lexis and morphology, infer the meaning of unfamiliar concrete terms from the context, use simple expressions to talk about their environment and respond appropriately to simple questions .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Content                         | Contents of the module in Chinese are very simple texts and listening texts on everyday situations, especially in a university environment, elementary oral and written text production as well as interaction on this topic, development of relevant reading and listening strategies, development of simple grammatical structures and appropriate vocabulary as well as exercises for automation in different forms of work and with different media.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Teaching and learning methods   | The module comprises language courses of 4 SWS and self-study.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Prerequisites for participation | No knowledge is required.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Applicability                   | The module is a compulsory elective module of the General Qualification in the Diploma degree program in Computer Science in the foundation course, which must be selected in accordance with the annex age 1 to the examination regulations. In the Bachelor's degree course in Computer Science, the module is a compulsory elective module of the General Qualification on, which must be selected in accordance with the annex to the examination regulations. In the Bachelor's degree program in Applied Computer Science, the module is a compulsory elective module of the General Qualification, which must be selected in accordance with the appendix to the examination regulations. In the Master's degree program in Computer Science, the module is a compulsory elective module of the General Qualification, which must be selected in accordance with Annex 1 to the Examination Regulations . The module cannot be selected in the Master's degree program in Computer Science if this module or a module with essentially the same content from a degree program in which the admission requirements according to Section 3 of the study regulations have already been fulfilled has already been completed. The module creates the prerequisites for the modules listed under prerequisites for participation. |

|                                        |                                                                                                                                                 |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Requirements for earning credit points | The credit points are earned if the module examination is passed. The module examination consists of a language examination lasting 90 minutes. |
| Credit points and grades               | 5 credit points can be earned through the module. The module grade corresponds to the grade of the examination.                                 |
| Module frequency                       | The module is offered every semester.                                                                                                           |
| Workload                               | The total workload is 150 hours.                                                                                                                |
| Module duration                        | The module comprises one semester.                                                                                                              |
