Position Snapshot

Location: Konolfingen, Switzerland
Company: Nestlé Product & Technology Center (NPTC) Nutrition
Act. Rate: Full-Time, 100%
Type of contract: Internship, 6 months, 100%
Starting date: February/March 2021
Application deadline: 1st January 2021

Position summary

Our Product Technology Centre in Konolfingen near Bern / Switzerland develops for Nestlé worldwide, new products, processes and packaging concepts in the areas of Milk and Nutrition. In addition, it also provides technical assistance to our factories around the world.

We are looking for a motivated candidate with a technical flair to support scientific research projects in the area of new process and product development for infant formula.

A day in the life of an intern in Food technology and Food science:

Give support to research and development projects under the supervision of Nestlé collaborators:

- Plan and execute pilot trials to test the effect of selected process parameters
- Use advanced equipment and analyze raw data
- Consolidate, report & present results internally to the company
- Perform literature search related to the project topics

What will make you successful?

- Currently completing a University degree in Food Science, Food technology or related sciences (Master student)
- Strong experimental skills
- Interest in dairy technology and powder science is an asset
- Cooperating well in a team, autonomous, structured and proactive
- Good written and oral English communication skills, basic German is an asset

You will contribute to our team objectives bringing with you a creative & curious & structured mind. You are results oriented & attentive to details. Your strong interest for nutrition, health, taste and ability to work in a fast-paced and changing environment and service orientation are key criteria for your success. If you are passionate about people, cultures and communication; if you like complex environments and want to make a difference to our company's performance, please apply at <https://www.nestlejobs.com>
