

Bitzer-Professur für Kälte-, Kryo- und Kompressorentechnik, TU Dresden; Hochschule Karlsruhe
Purdue University, Indiana, USA; Oklahoma State University, Oklahoma, USA

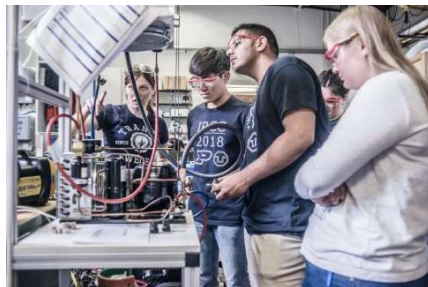

Summer School 2023

“International Refrigeration and Compressor Course”

Within the scope of the funded Summer School we offer an excellent preparation for the future profession in an international surrounding while working on global teams.

German and American students will attend two (2) residential weeks:

- May 29th – June 2nd, 2023 in Dresden and Rottenburg (Germany)
- August 14th – 18th, 2023 at Purdue University, Indiana (USA)

Lab tutorial @ TU Dresden (IRCC 2018)

In between the residential weeks, students work on a project in teams of American and German students via digital media and present their findings at Oklahoma State University, USA!

Discover interesting lectures, excursions and laboratory work in the fields of energy and process technology, investigation of physical property and environmental protection with the application in refrigeration and compressor technology!

Participants (IRCC 2019) at Purdue University, West Lafayette IN (USA)

The number of participants is limited!
Your application should include a short CV with a picture and a short motivation letter.
Application deadline is Dec. 9th, 2022.
