Sens-o-Spheres

The Vision of 2014

Sens-o-Sphere

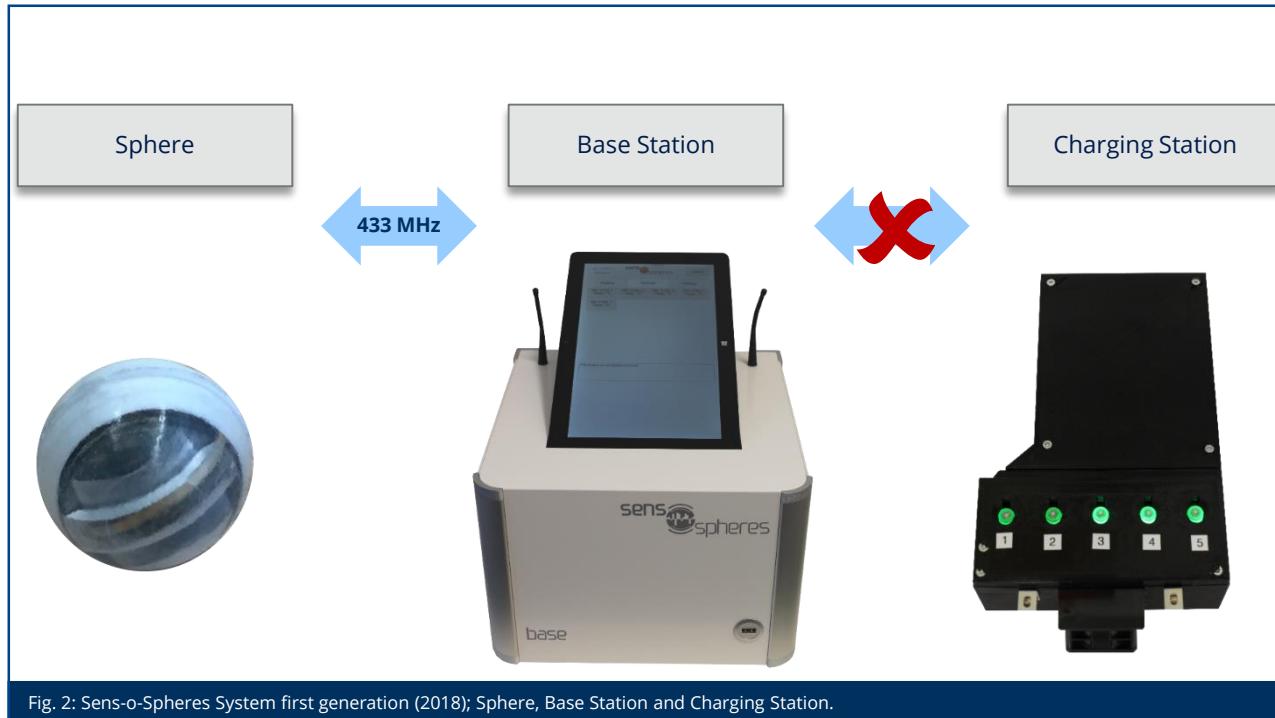

Set-Up

- Transmitter
- Antenna
- Micro chip
- Power Supply
- Biocompatible Shell

Sens-o-Spheres - System

Architecture 2018

Sens-o-Spheres – First generation

Applikation 2019

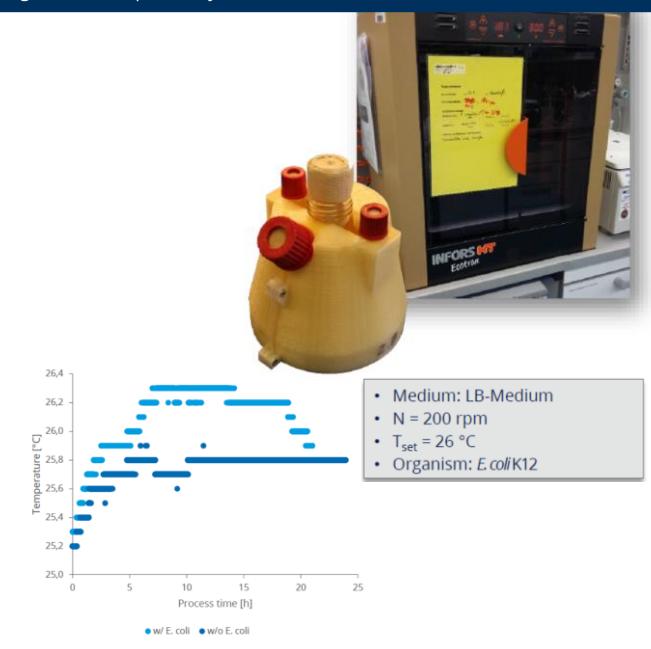

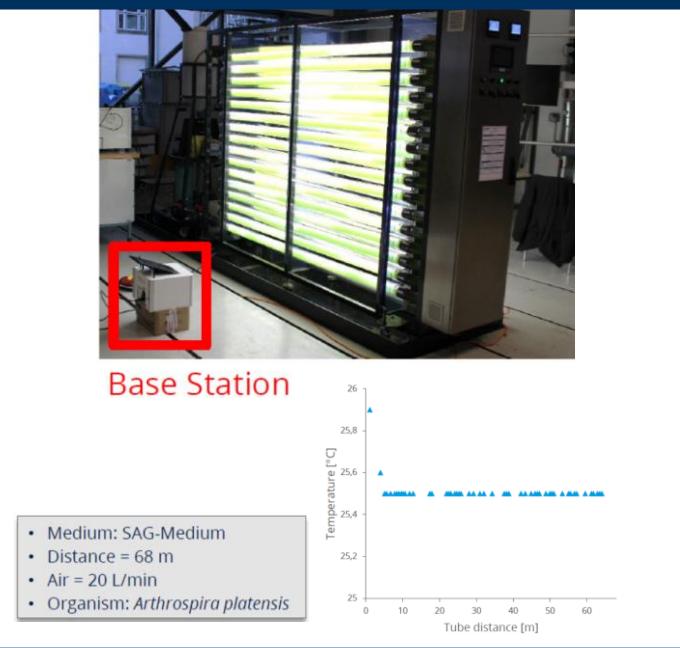

Fig. 4: Sens-o-Spheres System in tube reactor.

Lauterbach, T.; Lüke, T.; Büker, M.-J.; Hedayat, C.; Gernhardt, T.; Moll, R.; Grösel, M.; Lenk, S.; Seidel, F.; Brunner, D.; Bley, T.; Walther, T.; Lenk, F. Measurements on the Fly- Introducing Mobile Micro-Sensors for Biotechnological Applications. *Sens. Actuators Phys.* **2019**, 287, 29–38. <https://doi.org/10.1016/j.sna.2019.01.003>.

Sens-o-Spheres – possible projects for students

Topic 1: optimization of the solid state reference electrode used in miniaturized oxygen and pH sensor modules

Topic 2: packaging of miniaturized sensor elements for a modular design

Topic 3: Design of a glucose sensor based on chronoamperometric sensor element
