Prof. Dr. rer. nat. habil.  
Stefan Odenbach  
Dean of Studies, Mechanical Engineering, Textile and Garment Engineering

Dresden, 25. November 2020

Dear students of the Faculty of Mechanical Engineering,

again a week with a postponed info mail, but that has good reasons, because I had to wait for an important incoming information.

The question had already been raised several times: "What about the **Mechanical Engineering Learning Room?**". I had already announced that it would be up and running again this week. Now it's for sure: tomorrow evening, the Mechanical Engineering Learning Room in the Matrix at <https://matrix.tu-dresden.de/#/room/#Maschinenwesen-Lernraum-MW:tu-dresden.de>

Apart from that, just a brief mention for the PO transfer: we are almost finished with the planning and should be able to come next week with the corresponding info mail. So please be patient.

And finally, the voting topics:

- **University elections**, those who have not yet requested their postal voting documents must now collect them themselves! The request itself can be made via the TUD's self-service portal at <https://selfservice.zih.tu-dresden.de/l/index.php/briefwahlunterlagen>. Please make sure you go to the polls - the 50% should work - or ;-)
- And the second ballot that is still going on: The **vote for the e-learning jewels** of the TU Dresden, which is still possible until the end of November at <https://tud.link/99om>. You can easily do that, if you are logged in at Opal anyway! It would be nice if we could place the mechanical engineering there.

And finally, as always, the note: If you have any questions or concerns in the entire Corona situation with regard to teaching, please send them to [kummerkasten-mw@tu-dresden.de](mailto:kummerkasten-mw@tu-dresden.de), using your TUD mail address without exception (in contrast to the normal use of the Kummerkasten).

So much for today.

Stay healthy!

Stefan Odenbach
