Prof. Dr. rer. nat. habil.  
Stefan Odenbach  
Dean of Studies - Mechanical Engineering, Textile and Confection Technology

Dresden, October 20, 2023

Dear students of the Faculty of Mechanical Engineering,

actually, after the end of the peak phase of the pandemic, the infomails do not come so often anymore, but today there is something that is time-critical and therefore urgently needs to be communicated.

About 6 months ago I already mentioned that TUD is planning an **exchange program** with **National Taiwan University**. Now the story is complete and you can apply for this exchange until November 6 (that's why this is time-sensitive). More information and also the application and selection criteria can be found at <https://tud.link/z88l>. An exciting program...

Other than that, just a few little bits of information and reminders:

- The **catalogs for the catalog modules** were approved by the study committees on Wednesday and will be published in final form at <https://tud.link/ls74> early next week.
- As usual, the **report on the study committee meeting** can be found in the **Studiendekan on Air** podcast at <https://spoti.fi/3rM07Tf> on Spotify or Castbox via [https://bit.ly/Studiendekan-On-AIR\\_castbox](https://bit.ly/Studiendekan-On-AIR_castbox).
- Then it is once again reminded that there is an **early exam enrollment** for some subjects, which runs from **25.10.-05.11.23**. Please pay attention to the mail from the examination office next week!

So much for now, enjoy the weekend - the weather is supposed to be quite passable - and stay active in your studies!

Your

Stefan Odenbach
