Prof. Dr. rer. nat. habil.
Stefan Odenbach
Dean of Studies Mechanical Engineering, Textile and Clothing Technology

Dresden, December 21, 2023

Dear students of the Faculty of Mechanical Engineering,

the last infomail for this year, two days until Christmas, ten days until the end of the year. There won't be a big summary of the year here now, just a quick round-up of the information that will be important right at the start of 2024:

- The **pre-publication of the exam dates**, which you can find at <https://tud.link/3513>, has received an important update - the exam times and rooms are now available. But please take note: There may still be changes!
- **Registration for the examinations** will take place from 08.01.2024 to 21.01.2024. Please note the period!
- And then there is another very important point - especially with regard to the exams: **2-factor authentication**. Please be sure to set up the thing (if you have not already done so) in the self-service portal and test whether your access works. Otherwise there may be access problems in digital exams!
- The last point concerns the **e-learning gems** again. There are several nominations from the field of mechanical engineering, and you can still vote at <https://tud.link/y6iy> until the end of the year - it would be great if we had an example from the field of mechanical engineering at the top of the list. But it is important that you all vote.

These were the formally important points for today, the mail can also be found as usual in the **Dean of Studies on Air** as a podcast at <https://spoti.fi/3rM07Tf> on Spotify or on Castbox via https://bit.ly/Studiendekan-On-AIR_castbox.

And with that, it only remains for me to wish you all a

Merry Christmas and a good transition into the New Year 2024!

Yours

Stefan Odenbach
