Dean of Studies Mechanical Engineering, Textile and Clothing Technology

Dresden, June 14, 2024

Dear Maschinenwesen,

two weeks to go until the end of the semester, the exam period is approaching and so there is some news that I would like to share briefly:

- First of all, it is very important that the deadline for **exam registrations** is **08.07.2024**. This means that you should register for all exams as soon as possible so that you can complete your semester smoothly!
- Please note that the **exam dates**, which you can find at <https://tud.link/37cxu4>, can always be updated! Time and place may change, so you should always check that the slots in which you want to take the exam are actually where you expect them to be!
- As some people still have difficulties with **enrolling in Selma**, I would like to point out once again what works differently now than in HIS: In Selma, you must first enrol for the module in which you want to take an exam. Then the examinations appear and you can register for the corresponding examination. So it's a two-stage process and not, as in HIS, a selection from a long list...
- But exams are not just registration at Selma. There can always be **examination problems** and formal aspects such as sick notes, medical certificates, deadlines and all the things that go with them are important. There are always questions and uncertainties here and that is why I will be holding a large **information event for the entire mechanical engineering department** on 17.07.2024 at 16:40 in the HSZ/AUDI on all related issues! I would be delighted if we could fill the Audimax for this!

Finally, a look into the future, which is very important for our faculty: In the winter semester, the CHE ranking for mechanical engineering, the basis for the ZEIT study guide, which you may also have used in the preparation phase for your studies, will be compiled again. Last time we didn't do so well, which was mainly due to the fact that too few people took part in the survey. This should go better this time - so we'd like to point out now that it's very, very important to take part!

In the ***Dean of Studies on Air***, this mail should then be available again at the weekend as a pod cast at <https://spoti.fi/3rM07Tf> on Spotify or on Castbox via https://bit.ly/Studiendekan-On-AIR_castbox.

Now I wish you a nice evening of soccer and a sunny weekend,

Yours

Stefan Odenbach
