Dear students of the Faculty of Mechanical Engineering,

Four weeks of lectures have already passed, and this semester we are starting preparations for the examination period particularly early. Our aim is to ensure that you have the best possible opportunity to complete your modules before the transition to the new examination regulations (Prüfungsordnung, PO) takes place at the beginning of the next winter semester. The first round of information sessions has already taken place. Next week, we will be offering a further series of online advising sessions, followed by individual consultations. Please make sure to take advantage of these opportunities!

But first, let's turn to the examinations:

To help you plan ahead, we have already published the **examination schedule** at https://tud.link/272zrz. Please note that changes may still occur, so make sure to check the schedule regularly. If an examination you need to retake is missing, please contact me directly. We will then see what can be done.

Please be sure to note that the **1st examination registration period** ends on Monday, November 16, 2026!

- Business Administration written exam in MW-MB-07/MW-VNT-04/MW-WW-03 (2019 Curriculum), exam date November 27, 2026
- Assessment in Fluid Mechanics and Simulation Methodology (computer-based short test) in MW-MB-ET-01 (Curriculum 2019 and 2020), exam date: January 7, 2027
- Assessment for Textile Machinery Analysis (computer-based comprehension test) in MW-MaTM-22 (Curriculum 2022), exam date: December 31, 2026
- Additionally, at short notice: Written exam/oral exam in Mobile Refrigeration and Heat Pump Technology, exam date December 9, 2026, and collection of reports on Mobile Refrigeration and Heat Pump Technology, exam date November 27, 2026, in MW-MB-KST-35 (Curriculum 2019 and 2020)

2nd examination registration period: Monday, January 4, through Friday, January 15, 2027

- **Language examinations**: Registration directly with TUDIAS has been extended until **Monday, January 25, 2027**. This extended deadline also applies to the additional registration required for all language examinations that are part of the various modules in the curriculum (see registration instructions for language examinations).

DRESDEN concept

TUD is a founding partner in the DRESDEN-concept alliance.

3rd examination registration period: Monday, January 11, through Monday, January 25, 2027

- **All examinations and other assessed coursework**, except for those listed above.

And one more reminder for those of you planning to spend a semester abroad through **Erasmus+**.

The Erasmus+ information session will take place on **Thursday, December 3, 2026, at 4:40 p.m. in ZEU/260/H**. Topics will include the application process, funding and additional grants (top-ups) to help finance your exchange, as well as the recognition of coursework and examinations completed abroad.

The application period will open with this information session. The **deadline for Erasmus+ applications is February 7, 2027**. Further information is available at https://tud.link/9rrw.

Fortunately, this message is a little shorter than the last one! However, examinations are a particularly pressing issue in view of the upcoming transition to the new examination regulations. So please make sure you plan strategically and complete your modules in good time to ensure a smooth transition!

Yours

Stefan Odenbach
