Portrait – Technische Universität Dresden

“Knowledge builds bridges” is our university motto.

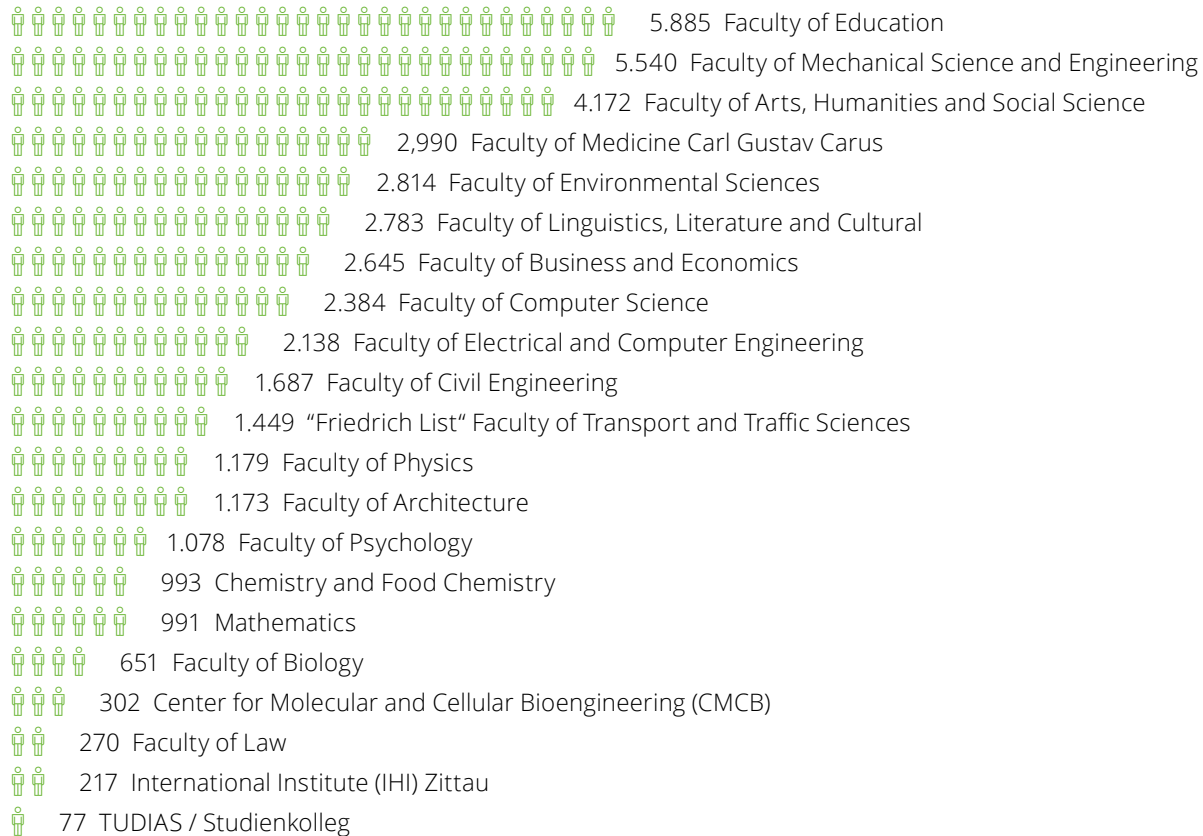

With our teaching, research projects and networks, we build bridges not only between academic disciplines, but also between business and society

Dabei engagieren wir, das Team des Career Service, uns besonders für die enge Verzahnung der Universität mit potentiellen Arbeitgebern. In unseren Schlüsselkompetenztrainings und Bewerbungscoachings erlernen Studierende aller Fachrichtungen wichtige Qualifikationen für den akademischen Arbeitsmarkt. Bei Campusveranstaltungen und Workshops mit Praxispartnern vernetzen wir Unternehmen mit unseren Nachwuchskräften. Wir beraten Sie zur effektiven Umsetzung Ihrer Recruiting- und Employer-Branding-Ziele an der TU Dresden.

The most important facts in a nutshell

- We are one of eleven German Universities of Excellence.
- As a comprehensive university, we teach over **30,000 students in 114 degree programs**.
- With 17% international students, we even have a brilliant reputation abroad.
- We offer both well-established degree programs such as the Diplom, State Examination and PhD, as well as younger academic degrees such as bachelor, master and international joint honors.

Your Attracting Talents at TU Dresden

No matter whether you are looking to support freshmen with a scholarship, are looking for students of all semesters to work alongside their studies, would like to advertize internships for students in their advanced study period, or want to inspire graduates to apply directly for a job in your company - we know all the target groups and all offers of TU Dresden.

Overview – Offers for employers

Your presentation at TU Dresden depends on the scope, target group and time requirements of the advertized position. Ideally, you combine a number of different communication channels. With our offers, you can:

Prominently advertize your vacancies

- Stellticket der TU Dresden
- Jobbox
- „Schwarzes Brett“ der Fakultäten
- Studentische Arbeitsvermittlung für Aushilfs- und Nebenjobs

Get to know students and graduates of your discipline personally

- Subject-specific career events
- Workshops with students
- Deutschlandstipendien German Scholarships
- Company contact fairs

Strengthen your employer brand

- Event information on the websites of TU Dresden
- Company profile
- University media

Meeting students on campus

Offers of the Career Service

Industry meeting^{online} Live Sciences January 21, 2021, 2 pm

The industry meeting raises students' awareness of job market prospects, current trends and suitable employers. A maximum of 15 selected employers of an industry present their career opportunities in an exclusive way to young talents and easily engage in personal 1:1 discussions with students. The Industry Meeting online is an innovative way of directing young talents to your recruiting homepage and of becoming part of a new and contemporary trade fair format.

Are you working in the field of life sciences, health technology, chemistry, food or cosmetics and looking for well-trained young talents? Recruit your young academic professionals at our next Industry Meeting.

Target Group

Students of chemistry, biology, biotechnology, electrical engineering (including specializations in automation, measurement and control engineering, instrumentation, micro- and medical technology), mechanical engineering, process engineering and natural materials engineering, materials science, mechatronics, computer science, information systems engineering, economics and engineering, etc.

Costs

from 690 Euro (depending on the service package, exclusive sponsoring is also possible)

Career in the Humanities – Employers present their professional fields

In November 2021, the Career Service and the Faculty Students' Councils of the humanities are planning to hold the information day „Career in the Humanities“. We would like to invite you as an expert partner to present the fields of work for scholars in the humanities and social sciences from your perspective and to provide information on possible ways to start a career in your company including the required skills. Along with other representatives from different fields of work, institutions and companies, and depending on your focus, you present interesting information on professional networking, project acquisition and self-employment. You do not necessarily have to offer vacancies or job opportunities.

Costs

none

✉ birgit.brand@tu-dresden.de

Career Live Stream with students

The Career Live Stream offers your company the opportunity to introduce itself to students in a 30-minute live video broadcast. On your premises, one or more employees can describe their everyday work and provide insights into your corporate culture. You can react spontaneously to students' questions in the chat and create the right foundation for applications that perfectly suit your requirements.

Your contribution

You choose a live stream speaker, a topic and a time slot. Sample topic: „A day in the life of a Key Account Manager at My Great Company“

Our service

- Marketing on the internet and on the Social Media of the Career Service
- Provision of the digital infrastructure with our partner CareerFairy

Date

Mondays, from November 09, 16, 23, 30, 2020

Costs

700 EUR plus VAT; discount possibilities (discounts are not cumulative) 20% for companies based in the former East German Federal States, 50% for the first 10 companies

Online Workshop

Are you supporting your employees in an innovative and competent way? - With our online workshops, you can pass on this knowledge to the excellently trained students of TU Dresden. You will impart practical expert and key skills and get in close contact with our young talents.

Possible topics

Job application training

- Do's & Don'ts in an interview
- Bewerben auf Englisch
- Online-application
- Business etiquette

Workshops on key skills

- Training for leadership skills
- Project management
- Public relations
- Social Media

Dates

- Between April 26, 2021 and July 15, 2021 (not in the Pentecost week) and in September 2021 during the Career Service application weeks (booking until January 30, 2021)

Our Service

- Marketing for the recruitment of student participants from TU Dresden
- Link to your employer branding clips (short image film, short portrait, virtual company tours, etc.)
- Support in the conception and implementation of the workshop
- Anmeldemanagement und Betreuung der Studierenden, inkl. Vorab-Information der Unternehmen über die Studienrichtungen der angemeldeten Studierenden
- Evaluation und Auswertung der Veranstaltung

Cost

None

Deutschlandstipendium

With a Deutschlandstipendium, you enable outstanding students in your chosen field of study to concentrate on their studies and to commit to non-profit activities. The positive word of mouth among scholarship holders, the networking with other sponsors, and the exchange with students on topics that are of interest to both of you will have a profound impact. It goes without saying that you are involved in deciding who will receive your scholarship.

Date

Registration by July for funding starting in the winter semester

Costs

1.800 EUR pro Studienjahr und Studierenden werden durch 1.800 EUR vom Bund für denselben/dieselbe, auch gemeinnützig engagierte Stipendiaten/Stipendiatin aufgestockt.

International Talent

TU Dresden is one of the most international universities in Germany: 17% of the students come from abroad. Therefore, the Career Service advises a large number of international students every year, most of whom are enrolled in degree programs taught in German. Especially the following subjects are frequented by international students: general and constructive mechanical engineering, process engineering, automotive engineering, physics, computer science, electrical engineering and information technology.

Would you like to introduce yourself as an employer to these interculturally competent, committed students? Possible formats include an application folder check, an application workshop or a tutorial on the topic of „The first days on the job“.

Job Shadowing

Job Shadowing is a worldwide known and popular way to get to know motivated students and to attract potential candidates for further assignments in your company (e.g. in the form of an internship or for direct employment). You offer one student or a group of students the possibility of a day of job shadowing in your company. You present yourself as an attractive employer and leave a lasting impression on the committed young talents. Degree programs, number of participants and scope of the format can be individually agreed upon in advance.

✉ ariana.kravchuk@tu-dresden.de

From Rookie to Engineer

With short presentations and exchanges in small groups, engineers from your company will give 70 first-year STEM students an insight into their personal career paths and everyday work. You provide students with a realistic job description, support them in choosing their specialization, and prepare them for the challenges in real life. Whenever students can combine their specialist knowledge with your practical examples during their study phase characterized by intensive fundamental training, you contribute to their motivation, to the success of their studies, and to focused professionals. In addition, you position yourself as an employer at an early stage. You can strengthen this effect by becoming a sponsor.

Date

Presumably from 2021

Content

5-minute introduction by the experts, followed by an exchange of ideas and question and answer sessions in small groups. Please note that this is not a pure company presentation. The focus is on the personality and experience of the experts.

Target group

Students of the Faculties of Mechanical Engineering, Process Engineering, Electrical Engineering or Computer Engineering up to the 5th semester.

Costs

Sponsoring ab 150 Euro
