## Research Funds for Joint Research

### Joint Research

This program is to support joint research projects carried out by research teams in Germany and Japan based on a 2 year research plan. JSPS's support mainly takes the form of travel grants. The ultimate purpose of these projects is to build sustainable inter-group networks by supporting researcher interaction between the two teams.

Japanese side: <http://www.jsps.go.jp/english/e-bilat/joint.html>

### Core-to-Core Program

This program is designed to create top world-class research centers that partner over the long term with other core research institutions around the world in advancing research in leading-edge fields, on issues of high international priority. While advancing research in these, the Core-to-Core Program also concentrates on fostering the next generations of excellent young researchers.

### Frontiers of Science (FoS) Symposium

JSPS and AvH support Frontiers of Science (FoS) symposiums that provide a platform for talented young researchers (up to 45 years of age) to engage in cross-disciplinary discussions on leading edge scientific topics. The symposiums aim to contribute to the development of new academic disciplines and the fostering of future generations of leaders. The participants lodge together over the 3-day period and attend all of the sessions.
