

Scouting

Matching project of the Career Services of TU Dresden and HTW Dresden

The Career Services search for companies in Dresden and Saxony whose working language is English. As almost 50% of international students of TUD and HTWD study in English and just have basic German skills they hardly find options for internships or jobs. But these students are highly interested in starting their career in Dresden or Saxony!

Develop an opportunity with us to access the potential of the international students and graduates in Dresden to secure your demand for skilled workers!

We offer

- Custom-fit matching
- The joint development and realization of formats as Job Shadowing, case studies, internships, excursions, working student positions and other offers suitable for you.
- Support and individual advice for the companies regarding international students.

We search

- Companies in Dresden and Saxony of all industry sectors who utilize our impulse to set up or expand the collaboration with international employees.
- Opportunities for practical experience for international students in Dresden and Saxony.
- Communication about challenges in the application and onboarding process for companies as well as for students.

Take advantage of the synergies, we are looking forward to your message:
