

Special restrictions due to SARS-CoV2

Dresden, June 16, 2020

Dear Users,

due to the current decline in the number of coronavirus infections, we can update our special regulations for the CFCI.

The following additional safety measures apply for operating the microscopes of CFCI:

- Access is limited to **two users per room** (one user per microscope) and is restricted to your **booked time**. In case it is necessary to have a consultation with a PI/supervisor directly in front of the microscope, this is allowed for max. **10 minutes** by wearing a face mask. For longer discussions please leave the microscope room.
- The **1.5 m** distance rule still applies.
- Please stick to the distance and hygiene rules!
- **Everybody has to wear:**
 - A lab coat
 - If there are two users in the room, a face mask covering mouth and nose is mandatory for all users in the room.
- Users who had contact with confirmed SARS-CoV-2 patients **are not allowed** to use the facility equipment.
- For users who are/feel sick (even slightly) **it is prohibited** to use the facility equipment.
- Please allow some buffer time (10 min) in your bookings, so that other users can start in time without meeting you and that there can be enough air circulation in between the bookings.
- In case of problems, call either 16426 or 16511. You can also send an e-mail to: lichtmikroskopie.mtz@tu-dresden.de

Thank you!

Your CFCI-Team
