

K. Schulz, K. Schlenz, R. Metasch, S. Malt, W. Römhild, J. Dreßler  
Determination of anethole in serum samples by headspace solid-phase microextraction-gas chromatography-mass spectrometry for congener analysis  
Journal of Chromatography A, 1200 (2008) 235 – 241.

K. Schulz, K. Schlenz, S. Malt, R. Metasch, W. Römhild, J. Dreßler, D.W. Lachenmeier  
Headspace solid-phase microextraction-gas chromatography-mass spectrometry for the quantitative determination of the characteristic flavouring agent eugenol in serum samples after enzymatic cleavage to validate post-offence alcohol drinking claims  
Journal of Chromatography A, 1211 (2008) 113 – 119.

K. Schulz, M. Berta, K. Schlenz, S. Malt, J. Dreßler, D.W. Lachenmeier  
Headspace solid-phase microextraction-gas chromatography-mass spectrometry determination of the characteristic flavourings menthone, isomenthone, neomenthol and menthol in serum samples with and without enzymatic cleavage to validate post-offence alcohol drinking claims.  
Analytica Chimica Acta 646 (2009) 128 – 140.
