The Faculty of Medicine of the Technische Universität Dresden is offering a position as a

Chair (W2) of Pediatrics - Pediatric Emergency Medicine (f/m/x)

The professorship is integrated in the Department of Pediatrics within the University Hospital Carl Gustav Carus Dresden and is meant to strengthen the existing expertise in Pediatric Emergency Medicine at the University Hospital Carl Gustav Carus Dresden. With the professorship you will take over the leadership for Pediatric Emergency Medicine at the Department of Pediatrics. This includes the leadership of the Pediatric Intensive Care Unit which is positioned within the Division of Neonatology and Pediatric Intensive Care at the Department of Pediatrics, and the leadership of the Pediatric Emergency Room. The professorship serves to strengthen research and medical education of Pediatric Emergency Care at the Medical Faculty as well as the improvement of the supraregional care of critically ill children at the University Hospital Carl Gustav Carus Dresden.

The prospective chairholder is supposed to represent the subject area in medical education and research in close cooperation with the Director of the Department of Pediatrics. You have long standing experience in team leadership and high social competence. Your willingness to a close collaboration with the Department of Pediatric Surgery, Neurosurgery and further surgical departments as well as the Department for Anesthesiology and Intensive Care Medicine is assumed. Furthermore, future-oriented supra-regional concepts in the medical and structural care of critically ill children is expected. An explicit wish is a long-standing experience in simulation and emergency care training, which is to be performed and further developed in close collaboration with the Interdisciplinary Center für Simulation Medicine (ISIMED). We look forward to your special engagement in medical education in the Dresdner Model of problem-oriented learning and your involvement in innovative and practice-oriented teaching concepts, which you may wish to present in English, too.

Our faculty puts special emphasis on your willingness to get involved in the research profile of the Medical Faculty and the Department of Pediatrics. We focus on molecular and pathogenetic mechanisms of inflammation and infection, the underlying cause of autoimmunisation and autoimmunity, technology and digital health, degeneration and regeneration, as well as the prevention of long-term morbidity within clinical studies in line with the Centers for Early Diagnosis and Prevention of Childhood Inflammatory Diseases. Expected is your active participation in clinical and basic research projects, preferable in close collaboration with the Center for Regenerative Therapies Dresden (CRTD), BIOTEC and the Max Planck Institute of Molecular Cell Biology and Genetics. You have an excellent reputation and research profile supported by publications and raised third party funds. The employment of professors with medical tasks is carried out at the University Hospital Dresden in the scope of non-pay-scale employment contracts with a basic remuneration and a performance- and success-related compensation.

Recruitment prerequisites according to § 58 SächsHSFG are a medical degree, doctoral and a post-doctoral degree/habilitation or an equivalent qualification record. Board certification for pediatrics and pediatric intensive care is required. Ideally, you have long-term clinical experience, you have board certification for neonatology, and you are willing to participate as background duty for the intensive care unit for neonatology and pediatric intensive care. In addition, a certification of palliative care is desirable. The Faculty of Medicine seeks to employ more women in leadership positions. Hence, we strongly encourage qualified women to apply. Applications from qualified candidates with additional support needs are also very welcome. Please send your application by January 05th, 2021 to the Dean of the Faculty of Medicine Carl Gustav Carus of the Technische Universität Dresden, Prof. Dr. med. H. Reichmann, Fetscherstraße 74, 01307 Dresden, Germany. For further details concerning the required application documents see the homepage of the Faculty of Medicine under jobs. For more information please contact the Dean’s office, Dr. Janetzky (+49351-458-3356), the equal opportunity officer Dr. Valtink (+49351-458-6124) or the representative for disabled persons Ms. Vogelbusch (+49351-458-3327).

The Technische Universität Dresden is a family-friendly university and offers a dual career service. The Faculty of Medicine also provides active support for childcare options as well as help in finding adequate jobs in the region for the candidate’s partner.
