TUD Dresden University of Technology, as a University of Excellence, is one of the leading and most dynamic research institutions in the country. As an important part, the Faculty of Medicine and the University Hospital Dresden work closely together in partnership and are committed to excellence in high-performance medicine, medical research and teaching, and patient care for the entire region. The University Medicine Dresden sees itself as a modern employer and offers attractive working conditions to all employees in teaching, research and patient care, technology and administration and thus promotes and develops their potential. TUD embodies a university culture that is characterized by cosmopolitanism, mutual appreciation, thriving innovation and active participation. For TUD diversity is an essential feature and a quality criterion of an excellent university. Accordingly, we welcome all applicants who would like to commit themselves, their achievements and productivity to the success of the whole institution.

The Institute of Physiology at the Carl Gustav Carus Faculty of Medicine of TUD Dresden University of Technology invites applications for the

**Chair (W2) of Personalized Oncological Surgery**

to be filled as soon as possible.

The position is assigned to the Department of Visceral, Thoracic and Vascular Surgery and will head the molecular biological research laboratory of the Department as an attending physician. As future chair holder, you (m/f/x) will represent and advance the molecular biological translational research in Visceral, Thoracic and Vascular Surgery. According to the interdisciplinary character of such a research approach, we expect close cooperation with the National Center for Tumor Diseases (NCT/UCC) and with other departments and institutes of the University Hospital, the Faculty of Medicine, TUD Dresden University of Technology and with research institutes outside the university. We expect you to actively participate in the preexisting infrastructures and research topics of the Faculty of Medicine and your dedication to teaching in German and in English language, as well as your active involvement in academic self-administration.

We are looking for a candidate with a well-documented translational molecular biological research focus in the area of Visceral, Thoracic and Vascular Surgery. You need to have experience in heading a respective research group. Your main research area must show a clear perspective of translation into clinical problems in the field of multi-modal oncologic therapy. A research focus regarding the use of patient-derived organoids in translational cancer research is desirable. National and international research cooperation is mandatory, you should also have experience in successful application for competitive third-party funding. We prefer a candidate with additional expertise in open, minimally invasive and robotic visceral surgery. Ideally, your surgical experience should demonstrate a clinical focus in the respective translational research area. Given such an experience, a clinical appointment in the Department of Visceral, Thoracic and Vascular Surgery is possible.

Appointment requirements include a completed university degree in medicine, a doctorate and habilitation or equivalent achievements in a subject relevant to the denomination of this chair. Board certification for visceral surgery and the permission to work clinically in Germany is desirable. Proof of extensive teaching experience of several years is required. Applicants must fulfil the employment qualification requirements of § 59 of the Institutions of Higher Education Act in the Free State of Saxony (SächsHSG).
The employment of professors with medical tasks is carried out at the University Hospital Dresden in the scope of non-pay-scale employment contracts with a basic remuneration and a performance- and success-related compensation.

The Faculty of Medicine strives to employ more women professors in academia and research. We therefore expressly encourage women to apply. The University is a certified family-friendly university and offers a Dual Career Service. We welcome applications from candidates with disabilities. If multiple candidates prove to be equally qualified, those with disabilities or with equivalent status pursuant to the German Social Code IX (SGB IX) will receive priority for employment. If you have any questions about these topics, please contact the Equal Opportunities Officer of the Faculty of Medicine (Dr. Valtink, phone +49 351-458-16124) and the representative for persons with disabilities of the Faculty of Medicine (Ms Vogelbusch, +49 351-458-12127).

Please send your application by October 22nd 2023 in electronic form in a single PDF file or in hardcopy to Dekanin der Medizinischen Fakultät Carl Gustav Carus der Technischen Universität Dresden, Frau Prof. Dr. med. Dr. Esther Troost, Fetscherstr. 74, 01307 Dresden (medberufungen@mailbox.tu-dresden.de). For further details concerning the required application documents please see the homepage of the Faculty of Medicine or contact the dean’s office (Dr. Janetzky, +49 351-458-3356).
