

The Carl Gustav Carus Faculty of Medicine and the University Hospital Carl Gustav Carus of Technische Universität Dresden invite applications for the

Chair (W3) of Neurology

to be filled by April 1, 2023.

The Department of Neurology at the University Hospital Carl Gustav Carus has a nationally certified stroke unit with a connected telemedical network, an independently managed neurological intensive care unit as well as other inpatient and outpatient therapy services. In the future, you will head the Department of Neurology, strengthen interdisciplinary cooperation and interfaces with the University Center for Vascular Medicine, the Center for Healthy Aging, geriatrics and the other intensive care units, and represent the entire spectrum of neurology in clinical practice, research and teaching.

Through your special focus on cerebrovascular and neurodegenerative diseases with innovative neuroregenerative strategies, you will strengthen the clinical-scientific profile of the clinic and participate in the existing research networks such as the Center for Regenerative Therapies Dresden (CRTD), the German Center for Neurodegenerative Diseases (DZNE) and the other non-university research institutions. We are pleased that you want to inspire our students with your clinical and scientific teaching concepts and welcome your commitment in academic self-administration.

Ideally, you are already known nationally and internationally as a research personality in neurology and have corresponding experience in the acquisition of third-party funding including research networks (e.g. SFBs, research centres) as well as relevant and appropriate management and leadership experience. You will also be able to demonstrate successful, internationally visible publication activity in neurology. We place particular emphasis on the areas of translational neurodegeneration and neurorestoration. You have profound expertise in the entire spectrum of neurological service provision. In addition, you can demonstrate experience in economically successful clinic management in a university environment.

Prerequisites for appointment include a university degree in medicine, a doctoral degree and a post-doctoral degree/habilitation or an equivalent qualification record. Board certification for neurology is required as well as the additional qualification in intensive care medicine. The requirements for the granting of a further training authorisation in the specialist competence of neurology as well as for the additional training in intensive care medicine by the State Chamber of Physicians of Saxony must be fulfilled. Prerequisites for appointment are governed by § 58 SächsHSFG.

The employment of professors with medical tasks is carried out at the University Hospital Dresden in the scope of non-pay-scale employment contracts with a basic remuneration and a performance- and success-related compensation.

The Faculty of Medicine seeks to employ more women in leadership positions and strongly encourages qualified women to apply. We also welcome applications from qualified candidates with disabilities or those with additional support needs.

Please send your application by August 28th, 2022 in electronic form in a single PDF file or in hardcopy to Dekanin der Medizinischen Fakultät Carl Gustav Carus der Technischen Universität Dresden, Frau Prof.in Dr. med. Dr. Esther Troost, Fetscherstr. 74, 01307 Dresden (medberufungen@tu-dresden.de). For further details concerning the required application documents please see the homepage of the Faculty of Medicine or contact the dean's office (Dr. Janetzky, +49 351-458-3356), the Equal Opportunities Officer of the Faculty of Medicine (Dr. Valtink, +49 351-458-6124) or the representative for persons with disabilities (Ms Vogelbusch, +49 351-458-12127).

TU Dresden understands diversity as culturally self-evident and a quality criterion of a university of excellence. Accordingly, we welcome all applicants who would like to commit themselves with their performance and personality to us and with us for the success of all. TU Dresden is strongly committed to the goal of a family-friendly university and offers a dual career service. The Faculty of Medicine also provides active support for childcare options as well as help in finding adequate jobs in the region for the candidate's partner.
