The Carl Gustav Carus Faculty of Medicine and Herzzentrum Dresden, Technische Universität Dresden are offering a position as a

Professor (W2) of Molecular Cardiology

and the position as head of Laboratory of Molecular and Experimental Cardiology as part of the Department of Internal Medicine and Cardiology to be appointed as soon as possible.

Herzzentrum Dresden is a University Competence Center in cardiovascular state-of-the-art medicine. It is responsible for advanced patient care, excellent clinical research and a leading educational body for medical school students.

We are looking for a scientist with wide leadership-experience and above-average qualifications in the field of molecular cardiology including in-vitro and animal studies. As a successful candidate you are highly experienced in the field of chronic heart failure research in a translational context including effects of muscle alterations and the translational, experimental inhibition by small molecules. Furthermore you are expertised in all aspects of endothelial cell function and biology.

You will work in close cooperation with the independent section of Invasive cardiac electrophysiology which is part of the Department of Internal Medicine and Cardiology. This requires you to ensure a close trustful and reliable cooperation with the Clinic of Cardiac Surgery and the Institute of Anesthesiology. Your tasks also include the representation of Cardiology in research and teaching.

We are looking for an individual with high social and emotional skills and a good qualification for up-coming management responsibilities. Excellent national and international research focusing on translational, clinic-oriented science is anticipated. You can also offer broad experience in academic teaching. We expect a high willingness to integrate in both existing and planned interdisciplinary clinical and scientific collaborations of the Faculty of Medicine and participation in the evolution of its outstanding profile, and welcome your engagement in academic self-governance.

The employment is generally based on a non-tariff contract with basic salary and performance-oriented payment with Herzzentrum Dresden which is part of this appeal process.

Prerequisites according to § 58 SächsHSFG include a university degree in natural science, a doctoral degree and a post-doctoral degree/habilitation or an equivalent qualification record.

The Faculty of Medicine aspires to increase the number of women in research and teaching, and strongly encourages qualified women to apply for this position. We also welcome applications from scientists with disabilities.

Please send your application by August 31, 2018 to the Dean of the Faculty of Medicine Carl Gustav Carus, Technische Universität Dresden, Prof. Dr. med. H. Reichmann, Fetscherstraße 74, 01307 Dresden, Germany. For further details concerning the required application documents see the homepage of the Faculty of Medicine or please contact the dean’s office (Dr. Janetzky, +49 351-458 3356), the equal opportunity officer Dr. Valtink (+49 351-458-6124) or the representative for disabled persons Ms Hillig (+49 351-458-3327).

Technische Universität Dresden is a family-friendly university and offers a dual career service. The Faculty of Medicine also provides active support for childcare options as well as help in finding adequate jobs in the region for the candidate’s partner.
