Job advertisement: Mentoring Master Chemistry and Biochemistry WS 26/27

The faculty of chemistry and food chemistry is looking for motivated master students as mentors for the new students beginning in the winter semester 2026/27.

Tasks:

A mentor is meant to facilitate the often-difficult start as a student at a new university. He/she accompany the students throughout the semester and helps with problems concerning matters of university, organization of studies and the life in a new city. The mentor meets his/her students on a regular base and helps them with upcoming questions and problems.

Requirements:

To become a mentor, you need to be a master student in chemistry at the TU Dresden:

- 2nd semester (during WiSe 2026/27) Master Chemistry or Biochemistry and graduated with a bachelors-degree from the TU Dresden
- OR
- 3rd semester (during WiSe 2026/27) Master chemistry and graduated from any university
- A good time management and sense of duty
- Be open and friendly
- Have good grades and an adequately amount of exams
- Speak and understand English good enough for fluent conversations
- Presence and commitment during ESE (welcome-week, 05. – 09.10.2026)

If you are interested, please send a CV and a letter at the *faculty students' council of chemistry and food Chemistry* until the **03.06.2026**.
