Materials for Food Contact Materials

Set-Off (15 odours/ taints) Flavours: : Acetophenone, 1,3-Dimethyl naphthalene, Ethyl acetate, Ethyl acrylate, 2-Ethylhexanol, Hexanal, Isophorone, cold seal adhesive/ latex, oxidized linseed oil, 4-Methyl benzaldehyde, Mineral oil, oxidized PE, Styrene, Toluene, 2,4,6-Trichlorophenol	Quantity
Poster with 12 sniffing sticks Labelled with names of substances, poster coloured, laminated and light resistant in German Language (without 2-Ethylhexanol, Toluene, 1,3-Dimethyl naphthalene) Price: 170 Euro plus VAT & shipping costs*	
Poster with 25 sniffing sticks Labelled with names of substances, poster coloured, laminated and light resistant in English Language (without: 2-Ethylhexanol, Isophorone, Oxidized linseed oil, Toluene <u>additionally:</u> Benzophenone, 2-Butanone, Butyric acid, E,E-2,4-Decadienal, 2-Ethyl-5,5'-dimethyl-1,3-dioxan (2-EDD), 4-Methylphenol, E-2-Nonenal, oxidized PA-6,6, oxidized PP, 4-Phenyl-1-cyclohexene, 4-Propyl benzaldehyde, Sotolone, Trichloroanisol, Vanillin) Price: 320 Euro plus VAT & shipping costs*	
Training set with 15 aroma solutions and odour strips Storage box with 15 x 2,5 ml vials, labelled with random codes, DIN A4 paper with assignment, block with 60 odour trips Price: 125 Euro plus VAT & shipping costs*	
Training set with 15 sniffing sticks Labelled with (please select) ☐ Substances ☐ Code** Price: 125 Euro plus VAT & shipping costs*	

Sniffing sticks for ranking test of intensity scale according to standard EN 1230 and DIN 10955 (2-Methylnaphthalene) Labelled with random codes Set with 7 sniffing sticks: 1 solvent reference, 5 sniffing sticks of intensity '0' to '4' and one stick of higher intensity (for less sensitive examiner) Price: 50 Euro plus VAT & shipping costs* ☐ Sniffing sticks shall be shipped in a vacuum packaging, 1,00€ per stick	☐
Sniffing sticks for ranking test of intensity scale with n-Butanol Labelled with random codes Set with 7 sniffing sticks: 1 solvent reference, 5 sniffing sticks of intensity '0' to '4' and one stick of higher intensity (for less sensitive examiner) Price: 50 Euro plus VAT & shipping costs* ☐ Sniffing sticks shall be shipped in a vacuum packaging, 1,00€ per stick	☐
Sniffing sticks for ranking test of intensity scale with 3-Methyl butyric acid (Isovaleric acid) Labelled with random codes Set with 7 sniffing sticks: 1 solvent reference, 5 sniffing sticks of intensity '0' to '4' and one stick of higher intensity (for less sensitive examiner) Price: 50 Euro plus VAT & shipping costs* ☐ Sniffing sticks shall be shipped in a vacuum packaging, 1,00€ per stick <i>High individual variance of sensitivity.</i>	☐
Sniffing sticks for ranking test of intensity scale with oxidized polypropylene Labelled with random codes Set with 7 sniffing sticks: 1 solvent reference, 5 sniffing sticks of intensity '0' to '4' and one stick of higher intensity (for less sensitive examiner) Price: 80 Euro plus VAT & shipping costs* ☐ Sniffing sticks shall be shipped in a vacuum packaging, 1,00€ per stick	☐
Sniffing sticks for ranking test of intensity scale with oxidized polyethylene Labelled with random codes Set with 7 sniffing sticks: 1 solvent reference, 5 sniffing sticks of intensity '0' to '4' and one stick of higher intensity (for less sensitive examiner) Price: 80 Euro plus VAT & shipping costs* ☐ Sniffing sticks shall be shipped in a vacuum packaging, 1,00€ per stick	☐

*) shipping costs within Germany Euro 8,00

EU-member states Euro 25,00

Non-EU-member states shipping costs upon request.

**) You will receive a complete code assignment, with substances and odour description.

***) The vacuum packaging costs are € 1,00 per sniffing stick. We recommend the vacuum packaging if the order is shipped with air freight to avoid leakages of the odour solutions from the sniffing sticks due to the air pressure differences in the aircraft.

We will send you an order confirmation after receiving your order.

Price per sniffing stick: 8,00 Euro (except for synthesized compounds) plus VAT & shipping costs*

	Substances	CAS-number	Odour description	Code	Quantity
Additives/Degradation	2,4-Di-tert-butyl-phenol	96-76-4	fruity, chemical,fresh, phenolic	610	
	3,4-Dimethyl benzaldehyde	5973-71-7	bitter almond, marzipan	199	
	4-Ethyl benzaldehyde	4748-78-1	bitter almond, marzipan	005	
	4-Methyl benzaldehyde	104-87-0	bitter almond, marzipan, sweetish	409	
	4-Propyl benzaldehyde Odour is only stable for 6 months.	28785-06-0	marzipan, hay, liquorice	423	
	Tetrahydrothiophene	110-01-0	natural gas odorization	295	
Printing inks	Benzophenone	119-61-9	rose, flowery	017	
	Ethyl acrylate	140-88-5	paint colour, tooth filling	341	
	2-Ethyl-1-hexanol	104-76-7	rubbery, minty	466	
	2-Ethyl hexyl acrylate	103-11-7	dispersion paint, sweetish	706	
	Mineral oil	---	newspaper, heating oil petroleum	495	
	Oxidized linseed oil	---	oil paint, rancid	633	
Solvent	Butanone	78-93-3	nail polish remover, flowery	769	
	n-Butyl acetate	123-86-4	ice candy, ethereal, flowery	039	
	Cyclohexanone	108-94-1	marzipan, mint, flowery, nutty	748	
	1-Ethoxy-2-propanol	1569-02-4	solvent-like, fruity, medical	346	
	Ethyl acetate	141-78-6	adhesive, nail polish remover	520	
	Isophorone	78-59-1	swimming ring, sweetish, minty	284	
	1-Methoxy-2-propyl acetate (MPA)	108-65-6	adhesive, fruity, solvent-like	390	

	n-Propanol	71-23-8	solvent-like, fruity	364	☐
	Toluene	108-88-3	adhesive, solvent-like	860	☐
Elastomers	Acetophenone	98-86-2	flowery, sweetish	308	☐
	Benzothiazole	95-16-9	gum	971	☐
	Dodecylmercaptan	25103-58-6	grapefruit, foul	184	☐
	5-Ethyliden-2-norbornene	16219-75-3	flowery, fruity	278	☐
	Latex 20 Euro	---	latex, rubber, fishy	100	☐
	Methacrylic acid	79-41-4	vinegar, disposable gloves	200	☐
	4-Phenyl-1-cyclohexene	4994-16-5	pomelo peel, carpet, green	775	☐
	4-Vinyl-1-cyclohexene	100-40-3	plastic, nail studio, sweetish	735	☐
Adhesives	2-Ethyl-5,5-dimethyl-1,3-dioxane (2-EDD) quick adapt	768-58-1	bilberry, fruity, sweetish	213	☐
	Latex 20 Euro	---	latex, rubber, fishy	100	☐
	Methyl methacrylate	80-62-6	tooth filling, nail studio	069	☐
Petroleumproducts	1,3-Dimethyl naphthalene 20 Euro	75-41-7	jute, tar, musty	030	☐
	2-Methyl naphthalene	91-57-6	musty, mouldy	014	☐
	Mineral oil	---	newspaper, heating oil petroleum	495	☐
	Xylene	1330-20-7	petroleum, solvent	833	☐
plastics	Acetaldehyde	75-07-0	fruity, sweetish, pungent	165	☐
	2-Cyclopentyl cyclopentanone	4884-24-6	fruity, cool-fresh	492	☐
	E,E-2,4-Decadienal	25152-84-5	frying oil, greasy, rancid	437	☐
	Trans-4,5-epoxy-2-(E)-decenal 20 Euro	134454-31-2	grass, hay, green, metallic	130	☐
	4-Ethyl phenol	123-07-9	leather, phenolic	451	☐
	Heptanal	111-71-7	grass, green, soapy	053	☐

plastics	Hexanal Odor is stable for max. 1 year	66-25-1	grass, green, rancid	676	
	1-Hexene-3-one	1629-60-3	plastic, burned, pungent	989	
	E-2-Nonenal	18829-56-6	like cardboard	845	
	8-Nonenal Odour is only stable for 4 months 20 Euro	39770-04-2	plastic, burnt, sweetish, fruity	534	
	1-Nonen-3-one	24415-26-7	mushroom, earthy, musty	094	
	Octanal	124-13-0	citrus, soapy	241	
	1-Octen-3-one	4312-99-6	mushroom, earthy, musty	377	
	Oxidized polyethylenterephthalate (PET) 20 Euro	---	sweetish, roasted, burnt, metallic	223	
	Oxidized polyamide-6 20 Euro	---	sweetish, musty	268	
	Oxidized Polyamide-6,6 20 Euro	---	popcorn, burnt, roasted, fishy, musty	153	
	Oxidized polyethylene 20 Euro	---	plastic, blown candle, waxy	572	
	Oxidized polypropylene 20 Euro	---	candle wax, burnt, roasted dough	087	
	Oxidized polystyrene 20 Euro	---	styrene, sweetish, etheric	837	
	Z-2-Penten-1-ol	1576-95-0	plastic, fruity, green	368	
	Sotolon	28664-35-9	lovage, „Maggi“	912	
	Styrene	100-42-5	adhesive, burnt, plastic, sweetish	702	
paper & board	E,E-2,4-Decadienal	25152-84-5	frying oil, greasy, rancid	437	
	2,6-Dimethoxy phenol	91-10-1	phenolic, animalistic, smoky	684	
	δ-Dodecalactone	713-95-1	flowery, fruity, synthetic	057	
	Dodecanal	112-54-9	raw carrot	235	
	4,5-epoxy-2-(E)-decenal 20 Euro	134454-31-2	grass, green, hay, metallic	130	
	4-Ethyl phenol	123-07-9	leather, phenolic	451	

paper & board	(±)-5-Butyl-4-methyldihydro-2(3H)-furanone (Whiskeylacton)	39212-23-2	coconut, nutty, roasted	208	
	Geosmin 20 Euro	19700-21-1	earthy, mouldy	041	
	Hexanal Odor is stable for max. 1 year	66-25-1	grass, green, rancid	676	
	Hydrogen sulfide H ₂ S	7783-06-4	lazy, rotten eggs	988	
	2-Isopropyl-3-methoxy pyrazine	25773-40-4	earthy, like potato	259	
	2-Methoxy phenol (Guajacol)	90-05-1	sweetish, smoked	221	
	3-Methyl butyric acid (Isovaleric acid)	503-74-2	sweaty	251	
	4-Methyl phenol (p-cresol)	106-44-5	horse stable, excrement	299	
	(E,E)-2,4-Nonadienal	5910-87-2	frying oil, fatty, rancid	337	
	Nonanal	124-19-6	orange	934	
	E-2-Nonenal	18829-56-6	cardboard	845	
	Octanal	124-13-0	citrus, soapy	241	
	1-Octen-3-on	4312-99-6	mushroom, earthy, musty	377	
	Phenol	108-95-2	phenolic	507	
	4-Phenyl-1-cyclohexene	4994-16-5	Pomelo peel, carpet, green	775	
	Phenyl acetic acid	103-82-2	honey, honey wax	513	
	3-Propyl phenol	621-27-2	leather	641	
	Sotolon	28664-35-9	lovage, „Maggi“	912	
	2,4,6-Tribromo anisole	607-99-8	cork, musty	429	
	2,4,6-Trichloro anisole	87-40-1	cork, musty	655	
	2,4,6-Trichloro phenol	88-06-2	disinfectant, medical	942	
	Valeric acid	109-52-4	cheese, sweaty	622	
	Vanillin	121-33-5	vanilla	583	

	4-Vinyl-1-cyclohexen	100-40-3	plastic, nail studio, sweetish	735	☐
	4-Chlor-3-methyl phenol	59-50-7	phenolic, rubber	335	☐
	Dimethyl disulfide	624-92-0	garlic, sulphurous	177	☐
	(E,E)-2,4-Nonadienal	5910-87-2	frying oil, fatty, rancid	337	☐
	(E,Z)-2,6-Nonadienal	557-48-2	cucumber	380	☐
	4-Methyl phenol (p-cresol)	106-44-5	horse stable, excrement	299	☐
	2-(Methylthio)benzothiazole	615-22-5	medical, rubber	121	☐
	E-2-Nonenal	18829-56-6	cardboard	845	☐
	Octanal	124-13-0	citrus, soapy	241	☐
	1-Octen-3-one	4312-99-6	mushroom, earthy, musty	377	☐
blank pen	Propylene glycol (solvent without odorant)	57-55-6	---	387	☐
	Triacetin (solvent without odorant)	102-76-1	---	959	☐
empty pens	Complete pen without aroma filling (for self-filling) 0,60 Euro	---	---	---	☐
sniffing strip	block with 60 odour strips for smelling aroma solutions 3,50 Euro	---	---	---	☐

*) shipping costs within Germany Euro 8,00

EU-member states Euro 25,00

Non-EU-member states shipping costs upon request.

**) You will receive a complete code assignment, with substances and odour description.

***) The vacuum packaging costs are € 1,00 per sniffing stick. We recommend the vacuum packaging if the order is shipped with air freight to avoid leakages of the odour solutions from the sniffing sticks due to the air pressure differences in the aircraft.

We will send you an order confirmation after receiving your order.

Sniffing sticks for sensory evaluation: Interior air of road vehicles

2,4,6-Trichloro anisole	87-40-1	cork, musty	655	☐
1,3,5-Trimethylbenzene	108-67-8	rubber, chlorine, musty	968	☐

Note:

The sniffing sticks are preferred to be used for panel training in identifying odours. Additionally, they can be used for the preparation of **aqueous odour reference solutions**:

You can simply transfer a small amount of the odour solution from the sniffing stick onto paper by 'painting' on it – preferred a filter paper or an odour strip (see block with 60 odour strips for € 3,50).

Then you transfer the 'painted' or better 'odoured' paper/strip into a defined volume of sensory neutral water for a defined time. You can influence the intensity of the odour in the water by the area of paper/strip that is 'painted' and the volume of water in which the paper is transferred.

The **aqueous odour solutions** can be used for a **sensory odour test** and – with some limitations – for degustations: for most odour substances we use the food additives propylene glycol (PG) and triacetin (TA), respectively, as solvents. For only some aroma compounds we use a silicone oil as solvent which is not approved as food additive (please contact us on that information).

*) shipping costs within Germany Euro 8,00

EU-member states Euro 25,00

Non-EU-member states shipping costs upon request.

**) You will receive a complete code assignment, with substances and odour description.

***) The vacuum packaging costs are € 1,00 per sniffing stick. We recommend the vacuum packaging if the order is shipped with air freight to avoid leakages of the odour solutions from the sniffing sticks due to the air pressure differences in the aircraft.

We will send you an order confirmation after receiving your order.

Materials for Sensory Evaluation of Food

(Training in according to standard DIN 10961)

Set-Off Flavours: Anethole (anise), Benzaldehyde (bitter almond, marzipan), Butyric acid (sweaty, cheese-like), S-Carvone (caraway seed), Diacetyl (butter flavouring), Eugenol (clove), 3-cis-Hexenol (fresh gras, green), Isoamyl acetate (banana, ice candy), Linalool (flowery, rose), 1-Menthol (peppermint), γ -Nonalactone (coconut), 1-Octen-3-ol (mushroom), γ -Undecalactone (peach), Vanillin (vanilla), Cinnamom aldehyde (cinnamon)	Quantity
Poster with 15 sniffing sticks Labelled with names of substances, poster coloured, laminated and light resistant in German Language Price: 170 Euro plus VAT & shipping costs*	
Trainings set with 15 aroma solutions and tear off sniffing stripes Storage box with 15 x 2,5 mL vials, labelled with random codes, DIN 4 A paper with assignment, block with 60 odour trips price: 125 Euro plus VAT & shipping costs*	
Trainings set with 15 sniffing sticks labelled with (please select) ☐ Substances ☐ Code** Price: 125 Euro plus VAT & shipping costs*	

Sniffing sticks for sensory evaluation of food Labelled with (please select) ☐ Substances ☐ Odour description ☐ Code** ☐ Sniffing sticks shall be shipped in a vacuum packaging, 1,00 € per stick *** Price per sniffing stick: 8,00 Euro (except for synthesized compounds) plus VAT & shipping costs*
