

IFMP Seminar

Date Monday, May 19, 2025, at 14:50

REC/C213

Zoom: None

Speaker **Aparajita Singha**

IFMP, TU Dresden

Title **Meet and Greet**

Abstract Aparajita Singha is our new Chair of Nanoscale Quantum Materials. Please join us for an informal meet and greet, where you can learn more about her group and her plans, and she can get to know her new colleagues. This is not intended to be a scientific talk, and it is open to all members of the institute and the broader Dresden condensed matter community, including our administrative and technical staff.

Host: J. Geck
