

### **Notes on the master's examination Experimental Physics in winter term 23/24**

The professors who have already given the lecture will be considered as examiners. These are currently the combinations:

Prof. Eng/Prof. Kobel, Prof. Klauss/Prof. Kobel, Prof. Kobel/Prof. Laubschat,  
Prof. Eng/Prof. Straessner, Prof. Klauss/Prof. Straessner,  
Prof. Laubschat/Prof. Straessner

The registration will take place online via HISQIS from 01/05/2024 to 01/22/2024.

Please note that the exam day is not binding until a time has been assigned by the examination office after the end of registration.

There is a possibility that your original exam date may change.

**Cancellation** of the exam without giving reasons is possible up to 3 working days (Mon to Sat) before the exam day (example: exam day Tuesday → cancellation possible until the previous Thursday, 12.00 p.m).

### **Free attempt §13 examination regulations**

If the **first attempt** is made in the 1st semester (Attention: The winter term ends on 03/31/2024!), the repetition with the aim of improving the grade is possible in the summer term 2024.

**Repeaters:** Students who have taken the master's examination Experimental Physics in summer term 2023 in their 1st semester (grade 1.3 to 5) and would like to make use of the possibility of the free attempt regulation until 03/31/2024, please send an informal letter (please remember your signature!) to the examination office with the following text:

I hereby declare that according to §13, paragraphs 1 and 2 of the examination regulations for the master's program in physics, my module examination taken in the 1st semester of the summer term 2023 shall be considered as a free attempt, which I would like to repeat in the winter term 23/24 with the aim of improving my grade.

The examination office will reset the first attempt in HISQIS so that you can register online yourself for an examination day in February/March from 01/05/2024 to 01/22/2024. The better exam result will stand.

Dresden, 12/19/2023
