

The **Chair for Cognitive and Clinical Neuroscience** is currently looking for:

Student Assistants (SHK)

starting April 2024

8-16 hrs / week

Our group investigates neuronal mechanisms underlying the processing of sensory information in the field of interpersonal communication, dyslexia, and (language) learning. Various neuropsychological methods are used such as fMRI, TMS, eye tracking, and behavioural experiments. We are currently looking for motivated and enthusiastic student assistants supporting our research, particularly an fMRI study on language learning and a study on developmental dyslexia.

Tasks:

Organisation of participant recruitment and study preparation, participation in data collection and analysis, involvement in conducting fMRI, dMRI, tDCS, and behavioural experiments.

We offer:

Comprehensive insight into a cognitive and clinical neuroscience lab, involvement in an international research environment, possibilities for further professional development and methodical competence, flexible working hours.

Requirements:

- Student of psychology, medicine or related field
- Ability to work responsibly and independently
- Ability to work in a team
- Excellent command of German and English
- Favourable:
 - Experience in conducting psychological experiments and data analysis
 - Long-term involvement

The contract of employment is based on the WissZeitVG and is initially limited to six months, with the option of extension. In case you are available only after April, feel free to send an application anyways! Scheduling of working hours is flexible and can be stipulated.
