

1 Dr. Yuichiro Himeda Biography

	
Name: Dr. Yuichiro Himeda	
Organization: National Institute of Advanced Industrial Science and Technology	
Profile Weblink: http://staff.aist.go.jp/himeda.y/	
Yuichiro Himeda is a chief senior Researcher at the National Institute of Advanced Industrial Science and Technology(AIST) in Japan. He received his Ph.D. in Organic Chemistry from Osaka University (1994). After a postdoctoral stay with Prof. Andrew D. Hamilton at the University of Pittsburgh (1995), he worked on the development of homogeneous catalysis for H ₂ storage and CO ₂ reduction. Since 4.01.2013 he is affiliate professor at the Saitama University.	

Awards and Scholarships:

May 2018

Award for Distinguished Papers

The Japan Petroleum Institute

October 2017 – September 2018

ENEOS Hydrogen Trust Fund

JXTG Nippon Oil & Energy Corporation

October 2013 – March 2019

Strategic Basic Research Programs

Japan Science and Technology Agency

October 2012 – March 2018

**Advanced Catalytic Transformation program for
Carbon utilization**

Japan Science and Technology Agency
