

UNIVERSITAS INDONESIA SHORT COURSE PROGRAM

MARITIME ECOSYSTEMS

A MULTIDISCIPLINARY APPROACH TO SUSTAINABILITY AND CONSERVATION

APPLICATION DEADLINE

27 JUNE 2025

PROGRAM PERIOD

11 - 22 AUG 2025

PROGRAM FEE

USD 690*

LIMITED QUOTA AVAILABLE ON A FIRST-COME, FIRST-SERVED BASIS. DON'T MISS IT!

ABOUT THE PROGRAM

Indonesia's rich maritime ecosystem featuring coral reefs, mangroves, and seagrass beds is vital to the nation's environment, economy, and coastal communities but faces serious threats from overfishing, habitat loss, and climate change. To address these challenges, Indonesia promotes marine protected areas, sustainable fisheries, and a multidisciplinary approach that blends science, policy, and community engagement. In support of these efforts, this short-course program offers students a transformative, hands-on learning experience in maritime sustainability, fostering global collaboration, cultural exchange, and innovative thinking to protect our shared marine future.

TOPICS

that you will learn and experience

- Marine Biodiversity and Conservation
- Oceanography and Marine Ecology
- Maritime Economy and Sustainability
- Maritime Law and Governance
